# TRAPPED BY FIRE IN Young Girl is Irish Victim

## REPRISALS MURDERS; PEOPLE JEER DEAD POLICE

(BY CABLE AND ASSOCIATED PRESS.)  
BELFAST, Feb. 23.—The ambush at Mt. Charles, County Donegal, last night resulted in the death of two policemen and a young woman. Her body was found today in a yard. She was struck through the heart.

The fighting lasted half an hour and two attackers were captured. Reprisals followed. Two shops in Mt. Charles were burned and another house was set on fire, but saved.

## SEA-TO-SEA RACE ENDS.

Mail Planes Make New Record.

Time from San Francisco to New York 33 Hours, 20 Minutes.

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, Feb. 23.—A mail plane, dispatched from San Francisco at 1:30 p.m. yesterday morning, arrived in New York at 1:50 p.m. today, establishing a new record of 33 hours, 20 minutes.

The plane, a new cross-continental model, was piloted by Captain J. H. Doolittle, who was accompanied by two passengers.

The plane was forced to descend at Dulles, Pa., on account of engine trouble, but was able to get to New York.

Other eastbound planes were also in the air, but none reached Chicago yesterday.

The newspaper editors of Dublin today were notified by the Irish republican army that publication of certain prohibited details of the executions of Sinn Féin leaders by the crown forces will be punished with death.

The editor is hereby warned that the injunction should not be granted.

## LUMBER ASSOCIATION SUED.

Government Charges Price Raising and Production Curtailing Plot.

(BY A. P. NIGHT WIRE.)  
ST. LOUIS (Mo.), Feb. 23.—Charging violation of the Sherman anti-trust law, the government today filed in Federal court injunction proceedings against the Southern Pine Association, sixty-one corporations and sixty-nine individuals. Granting of a permanent injunction would bring dissolution of the association, it was explained.

The suit alleges the association has operated to curtail production to enhance prices and that as a result profits on sales of yellow pine advanced from \$4.41 a thousand feet in 1918 to \$30.35 in 1920.

The suit was filed in compliance with instructions from Attorney General Palmer and is based on a report of the Federal Trade Commission.

Judge Farris set March 15 for a hearing and directed the District Attorney to prepare an order for the defendants to show cause why the injunction should not be granted.

The petition asserts that "because of the rapidly increasing prices for yellow pine lumber, the price fixing committee of the War Industries Board established maximum prices for such lumber, which were in legal effect on and after June 15, 1918."

## MAKE TROUSSEAU WHILE AT WORK.

Senator Smoot Declares Government Clerks Don't Work Very Hard.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, Feb. 23.—Work in some government departments moves so leisurely that girl employees have been known to make their trousseaus during working hours, the Senate was told today by Senator Smoot, Republican, Utah. The Senator said he personally had investigated the situation in the offices.

"Why," he added, "it has got so that when I start for an office word is telephoned ahead that Senator Smoot is coming and for everyone to get busy."

When policemen reached Donegal with their dead comrades the people jeered them. Reprisals followed. Sinn Féin hall was burned, shops were raided and people fled. The disturbance continued all night. A constable was killed, but it was of no account to the rebels, almost at once.

Divisional Commissioner of Police Cruise of Galway, in a statement regarding the alleged ill-treatment of Jeremiah Howard of Omagh, N. B., in that city recently, says today: "Jeremiah Howard was detained about thirty minutes in the barracks in Galway while he was questioned and his passport papers examined. He expressed himself as pleased at his courteous treatment by the police, when he presented with photographs of himself, Omagh citizen, and noted a kindly message to the Mayor of his city from the divisional commissioner."

## BELIEVE WOMAN WAS POISONED.

Found Staggering on Gardena Street; Deputies Are Investigating Mystery.

A mysterious woman found staggering in a semiconscious condition on a street in Gardena last night, provided the Sheriff's office with a puzzling enigma which a squad of deputies, under the direction of Capt. Hots are trying to solve. The woman was discovered by Constable Palmer and taken to the home of Dr. Stein, who told the officers that he suspected she had been poisoned.

In a brief interval, the woman uttered the name of Gettie Kane, which officers believe is her own. A card was found on her giving the name of Mrs. Eva Noguen, of 845 Potter Park avenue, this city. Mrs. Noguen told the deputies that she knew a Mrs. Kane and that she had had an apartment on Flower street but had given it up today and had come to the McKimley Home for Boys near Gardena to visit her son.

The authorities were trying to get in touch with the woman's son, but McKimley home early today but had received no further information at that time.

Whether the woman attempted suicide or is the victim of foul play was the question facing the officers for solution. She is described as being about 35 years old and of sandy complexion. She wore a wedding ring and a signet ring with the initials "K" on it.

## TAXI DRIVER HELD UP.

J. Broderick, a driver for the Yellow Taxicab Company, reported that he was held up by two men in the 1200 block on West Twelfth street and relieved of \$15. The bandits drove two blocks away in his cab and abandoned it on the corner of the street, where it was later recovered by detectives of the police flying squad.

## LATE NEWS.

ROBBERS GET \$50,000  
MINNEAPOLIS, Feb. 23.—The value of the loot taken by the bandit who wounded Sgt. Strong, railway mail clerk, held up the Northern Pacific's North Coast Limited last Friday and escaped, was fixed at \$50,000 by W. J. Marles, chief postal inspector, today.

FIGHTS BANDITS, SAVES GEMS  
NEW YORK, Feb. 23.—I. E. Soloway, Brooklyn jeweler, tonight had a pistol battle with two bandits who entered his shop and drove them off, wounding one man, who was later captured by the police. The jeweler saved \$50,000 worth of diamonds.

CONEY RESUMES FLIGHT  
DALLAS (Tex.), Feb. 23.—Lieut. William D. Coney, who arrived here at 12:45 p.m. today, resumed his transcontinental flight from San Diego to Jacksonville at 10:14 o'clock tonight. Following his arrival in the Florida city, Lieut. Coney plans to immediately begin preparations for a flight back to California in a second attempt to establish a cross-country record.

Five Destructs Famous Altar  
(BY CABLE AND ASSOCIATED PRESS.)  
ROME, Feb. 23.—Fire in the world famous Chiesa della Casa Santa, at Loreto, destroyed the altar and the statue of the Virgin, a dispatch today.

## GERMANS NOW USE PROPAGANDA IN EFFORT TO EVADE PENALTY; FRANCE WANTS ONLY DAMAGES.

(EXCLUSIVE DISPATCH.)  
NEW YORK, Feb. 23.—The French Ambassador, Jules Jusserand, today at the exhibition of war souvenirs to be sold for the benefit of the fatherless children of France described the condition of Rhineland with only twelve houses uninjured and more than 100,000 people homeless.

"Our people believe that those who did this should do their part in the reparations," he said. "In 1871 Germany made war on us; the war lasted seven months. We had no chance to touch a house. Bismarck wanted \$1,000,000,000 for beating us on our own ground. We paid in gold. Some of that was stored away and used against us in this war. We ask nothing of the Germans for the country, but only for the people to help them get back homes. If the Germans pay, perhaps they will be admitted again to the company of civilized nations."

"But the enemy has not changed. They not only do not express regret, but are looking for vengeance. They are putting out false propaganda. They think that if they keep repeating that two and two make five it will not only become a truth, but an axiom. The Germans complain of the French negro soldiers in Germany and said there had not been one there for eight months."

\*\*\*\*\*  
NEAR EAST PROBLEM HARD.  
"No Compromise," Says Venizelos, When Reparations Conference Meets.

(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, Feb. 23.—Former Premier Venizelos of Greece in a statement today on the proposed revision of the Treaty of Sevres declared there could be no compromise. "Constantine's return," he said, "has nothing to do with the treaty. It is a domestic affair and ought not to be magnified."

The Turkish Constantinople delegation and the Nationalist delegation, who are still outwardly hostile towards each other, but whose proposals at today's session were virtually identical, got together as soon as they reached their hotel. It is expected that before tomorrow the two delegations will meet in a meeting with the Greeks, who desired to reply to what the Turks said to be the substance.

## HOLLAND ANXIOUS FOR RUSSIAN DEBT.

(BY CABLE AND ASSOCIATED PRESS.)  
THE HAGUE, Feb. 23.—Holland is watching the relations of Great Britain and France with Russia, and if any country receives a guarantee of debt payments from Russia, Holland will undertake to secure equal treatment of the Serres treaty, and the afternoon meeting with the Greeks, who desired to reply to what the Turks said to be the substance.

The Turkish Constantinople delegation and the Nationalist delegation, who are still outwardly hostile towards each other, but whose proposals at today's session were virtually identical, got together as soon as they reached their hotel. It is expected that before tomorrow the two delegations will meet in a meeting with the Greeks, who desired to reply to what the Turks said to be the substance.

## GIGANTIC PLANE READY.

Can Sink Any Dreadnaught Within 650 Miles of American Shores.

(EXCLUSIVE DISPATCH.)  
WASHINGTON, Feb. 23.—The Army is building a new type of giant bombing plane capable of sinking any hostile dreadnaught that ventures within 650 miles of American shores. This aircraft was made before the Senate Military Affairs Committee by Col. T. H. Bane of the Army aviation service, according to the printed testimony made public today in connection with the favorable report on the Army appropriation bill.

Two of these planes are already nearing completion. They will be the biggest heavier-than-air machines in existence. They will be capable of carrying a bomb weighing 10,000 pounds. They will cost \$75,000.

"That is the first big airplane built in this country," Col. Bane told the committee, "and I should like very much to see it. It has a wingspan of 150 feet and a length of 100 feet. It has a maximum speed of 150 miles an hour and a range of 1,000 miles. It is capable of carrying a bomb weighing 10,000 pounds. It will cost \$75,000."

"I know of no country that has a larger airplane," said Col. Bane. "They have that class of airplane. They are all striving on this same proposition to get airplanes that will carry bombs like this for the attack of naval vessels."

"What is the maximum radius of the new planes?" asked Senator New.

"Thirteen hundred miles—650 miles out," answered Col. Bane. "Is there any conceded limit to the size of the planes?" asked Senator Lenroot of Wisconsin.

"We have not reached it yet," replied Col. Bane. "It is reasonably possible that they may attain such size as to make destruction of any dreadnaught beyond question," asked Senator Lenroot.

"Why, I believe that they have gotten to that point already," answered Col. Bane. "There is one way to decide that, and that is to try it."

"You think they can destroy any dreadnaught?" inquired Senator Keating of Tennessee.

"Absolutely," Col. Bane replied. "The committee was so impressed with this and other testimony that it increased the appropriation of \$19,000,000 made by the House for aircraft to \$23,000,000. It provided that at least \$5,000,000 of this amount should be spent in experimental work on the development of the airplane. The total amount carried in the Army bill as reported by the committee is \$17,000,000, or \$14,000,000 more than the total of the House bill. The Senate committee increased the appropriation for the Army pay from \$144,000,000 to \$141,000,000, thus providing for an army of 150,000 men. The Senate is also recommending an increase of the National Guard appropriation from \$23,000,000 to \$25,000,000."

## AUTO HIT ON CAR TRACKS.

Woman in Standing Motor is Injured by Pacific Electric Coach.

An investigation is under way of the circumstances surrounding a peculiar automobile accident at Nadeau Junction at 8 o'clock last evening, when Pacific Electric car No. 922 of the San Pedro line struck the automobile of W. H. Risley of 4425 South Park avenue of 745 East Twenty-seventh street, injuring Mrs. Risley, who was the only occupant of the car at the moment of the crash. Mr. Risley, who had been driving, was on the ground and was not hurt.

Information given The Times over the telephone was to the effect that Mr. Risley's car stalled on the tracks while he was returning from a visit to his son-in-law and that he was out trying to push it off when the car approached. It struck the motor and dragged it about 100 feet, wrecking it badly. Mrs. Risley received cuts about the face and arms and was taken by her husband to the Huntington Park Hospital. The South Park-avenue address for Mr. Risley was given by this informant. It is a real estate office of the same name, owned by Ernest G. Haslum, a young clerk. He is in jail on a statutory charge.

## RESCUERS BALKED; ENTOMBED VICTIMS ARE SUFFOCATED

(BY A. P. NIGHT WIRE.)  
DUQUOIN (Ill.) Feb. 23.—Seven men are believed to have lost their lives in a fire that has been raging in the Kathleen mine at Dowell, five miles south of here, since 2 o'clock this afternoon.

The fire, which is believed to have been caused by an electric wire coming in contact with a canvas curtain, started in a gallery about a half mile from the shaft, imprisoning the men. Rescue teams have been unable to get near the fire.

The mine is owned by the Union Collieries Company of St. Louis.

The gallery where the men were caught is on the 225-foot level, and when, after several hours, it had been impossible to reach the scene, members of the mine rescue crews expressed the opinion it was impossible for any of the seven men to have escaped suffocation.

Gas in the chamber was ignited by the blazing curtain, and the flames were communicated to coal which lined the gallery.

Local fire-fighting facilities were inadequate and assistance was summoned from near-by towns.

Mine rescue squads from surrounding counties have been recruited under State Mine Inspector Frank Roshoff and call was sent for additional squads from upstate rescue companies.

The intensity of the fire, it is believed, precluded the possibility of any assistance for the entombed men.

## HEARING ON TAX BILL.

Joint Committee is in Session.

Body Refuses to Inquire into Contemplated State Expenditures.

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, Feb. 23.—Taxation rates and the proportionate share to be borne by various corporations against took the center of attention here tonight, when the joint legislative committee on revenue and taxation opened a series of formal hearings at which various public utilities were to be heard in opposition to the King bill and other State agencies were to be heard in support of different measures.

The bill will, it is believed, increase the tax rates of various corporations, including telephone and telegraph companies, railroads, banks and others about one-third.

TO FIT BUDGET.  
The afternoon was devoted to determining if the committee would get on in the question of whether the budget had been made to fit the possible taxes for the next biennium, or whether the taxes were going to be made to fit the budget as was charged by representatives of the corporations. That question disposed of, the committee turned tonight to the definite complaints put forward by the various classes of corporations.

Beverly Hodgehead, Berkeley, opened the proceedings after the hearing was called to order tonight. First he asked the committee to go to a room on the fourth floor of the Capitol Building, where about 200 persons tried to fit in a space inadequate for thirty. Somebody suggested that adjournment be taken to the Senate chamber, and the committee and spectators sought their way through a smoke screen and moved downstairs. There Hodgehead moved the committee to hear the testimony of the corporations to prove, and then John A. Drum made a more extended statement.

STATEMENT BY SCOTT.  
Drum was followed by Harry Scott, a tax attorney of San Francisco, who presented a statement in which he said that the State's revenue was \$100,000,000, and that the State's expenditures were \$120,000,000.

## GOVERNMENT OF MEXICO IS OPTIMISTIC.

Predict No Paralysis of Traffic Despite Strike of National Rail Employees.

(BY A. P. NIGHT WIRE.)  
MEXICO CITY, Feb. 23.—Although employees of the National Railways carried out their threat to strike, and quit their jobs in large numbers today, government officials are optimistic regarding the outcome. They predict there will be no paralysis of traffic.

More than 10,000 volunteer strikers have applied for jobs, and this fact, coupled with the military precautions taken, led the officials today to believe the strike will end within a fortnight. The Secretary of the National Union has issued a manifesto to the strikers declaring that the strike is unconstitutional and that he will stand firm against the demands of the union, which have "sabotaged as one of the pretexts."

He charges the strike is unconstitutional and that he will stand firm against the demands of the union, which have "sabotaged as one of the pretexts."

The strike, which was not officially called to end until tomorrow noon, but which was partly effective today, embraces not only operation of the railroads, but the clerical forces and workshop employees. The telegraphers, who have been on strike for several weeks, have also declared a strike.

Some minor disorders were reported in outlying districts.

## KING TAX BILL SEEMS DOOMED.

Administration Forces Whistle to Keep Courage.

Plunderbund Fails to Win Votes for Measure.

Old Enemies Return Fuller of Fight Than Ever.

BY RYLE PALMER.

SACRAMENTO, Feb. 23.—A second defeat for the State administration's \$11,000,000 King tax bill was indicated here today as a rehearing of the tax question was begun by Senate and Assembly committees as legislators arrived from various parts of the State for the second half of the forty-fourth session tomorrow.

Administration leaders are whistling to keep up their courage, this childish pastime taking the form of a campaign to keep the bill from passing.

On the contrary there are indications that the administration has lost a few votes both in the Senate, where the bill was passed by a narrow margin, and in the Assembly, where the measure went down to defeat.

And the so-called legislative majority that defeated the bill, far from relaxing with success and apologies for its action, is here in a fighting mood, armed with facts and figures and backed with a decided proportion of public opinion.

Furthermore, a complete airing of the bill was demanded tomorrow of the administration's long-distance telephone and telegraph campaign to force passage of the King bill during the first half of the session.

BISHOP TO FIGHT.

This demand will be made by Assemblyman James O. Bishop of San Diego, who fought the \$11,000,000 tax bill in January, but whose vote has been changed during the last few weeks by the administration's tax shenanigans.

Bishop's utterances today leave no doubt of his stand.

"I am against the bill stronger than ever," he said, "and the claim that I had switched my vote is just a piece of political propaganda. I am going to try to expose it."

The serious charge was made by Bishop that State officers and employees boldly used the long-distance telephone and telegraph in a desperate endeavor to bring political pressure to bear upon legislators opposed to the administration's tax program.

Real funds were expended he asserts for the purpose of sending telegrams and telephonic appeals to party leaders and other influential persons throughout the State, in each instance an attempt being made to locate some person friendly to the administration and capable of forwarding desired orders to the opposing legislators.

Assemblyman Bishop believes that the administration's campaign of intimidation

## PLENTY OF WORK FOR LAWMAKERS

Legislature Has 2285 Measures Awaiting Disposal.

Only Ten Days Left to Decide on King Tax Bill.

Bitter Fight Expected Over State Reapportionment.

BY A. P. NIGHT WIRE.

SACRAMENTO, Feb. 23.—The California Legislature, which adjourned January 24 for its thirty-day constitutional recess, will resume its sessions tomorrow. It faces 2285 bills and resolutions introduced at the first half of the session, and not disposed of. There were 2319 measures of all classes introduced, but a few emergency appropriations and joint resolutions of routine nature were passed.

These 2285 bills and resolutions include several which will first be considered by the Legislature tomorrow, and most pressing is the King tax bill, which would fix future tax rates for California.

Assemblyman Walter J. Schmidt of San Francisco, who was elected to the Legislature to succeed to a vacancy caused by the death of an Assemblyman-elect from the Bay City.

Schmidt, who bears the distinction of being the youngest member of either house, refused prior to his election to commit himself to either faction of the tax controversy, but he defended the King bill and made the bill an issue in his campaign.

He said today that he proposed to listen to the tax arguments and to cast his vote according to his convictions when the matter has been thoroughly explained to him.

A determined contest has been started by both sides to obtain the vote of Assemblyman Walter J. Schmidt of San Francisco, who was elected to the Legislature to succeed to a vacancy caused by the death of an Assemblyman-elect from the Bay City.

He said today that he proposed to listen to the tax arguments and to cast his vote according to his convictions when the matter has been thoroughly explained to him.

A determined contest has been started by both sides to obtain the vote of Assemblyman Walter J. Schmidt of San Francisco, who was elected to the Legislature to succeed to a vacancy caused by the death of an Assemblyman-elect from the Bay City.

Schmidt, who bears the distinction of being the youngest member of either house, refused prior to his election to commit himself to either faction of the tax controversy, but he defended the King bill and made the bill an issue in his campaign.

## RESUME HEARING ON TAX MEASURE

(Continued from First Page.)

They Catch 'Em There Via Dry Dock and Figure 'Em Up Only by the Ton.

WASHINGTON, Feb. 23.—They fish with 1000-foot dry docks down in the canal zone and figure the catch in long tons. When gates of the Balboa dock were opened recently to admit a vessel, according to the always truthful Canal Record, "a school of fish swam in." The dock workers got away with all they wanted.

The commissary got 490 pounds of "between two and three tons more" were shoveled overboard with a crane. "Most of them," the Record adds, "recovered and swam away."

After these general figures were completed, the plan of procedure outlined by Drury was that each corporation, would ask to be heard by the Senate chamber, and Senator Carr had previously announced that the committee would "stay all night" in the opinion of persons familiar with such hearings.

The committee planned to sit again at 10 o'clock tomorrow to complete the hearings and formulate a report. It was announced today that the Senate chamber would be closed to avoid serious complications in fixing rates for the ensuing fiscal year.

After Scott finished his reading, H. W. Clark asked Secretary M. D. Lash the Board of Equalization a number of questions calculated to establish that the corporations had no knowledge of the fixing of the proposed tax rates.

Lash said that there had been ample notice and heaver offered a \$100,000 bond to be forfeited if he admitted by Clark to have been the representative of a group of corporations in their petition matters.

The committee was asked to check some tax figures for the corporation.

At a late hour the question was still being asked whether the new rates had been given.

LAUGH AND HEAVY OFFERED A \$100,000 BOND TO BE FORFEITED IF HE ADMITS BY CLARK TO HAVE BEEN THE REPRESENTATIVE OF A GROUP OF CORPORATIONS IN THEIR PETITION MATTERS.

The committee was asked to check some tax figures for the corporation.

At a late hour the question was still being asked whether the new rates had been given.

### MANY NEGROES OUT OF WORK.

Over 20,000 in Chicago's Army of Unemployed.

Refuse to Go South Where They Are Sorely Needed.

South Side Loan Banks Doing Thriving Business.

CHICAGO, Feb. 23.—Of Chicago's army of unemployed, 20,000 are colored. This is a deduction from a survey just completed.

That the proportion of colored unemployed is not greater than that of other races seems to be true, despite the fact that 20,000 represents a large number to be idle out of a white population of 80,000. The reason given is that Chicago is a sort of mobilization center because of its widely diversified diversity of opportunities for labor and streams of colored men thrown out of work by the closing down of automobile plants in Detroit, Flint, Toledo and other near-by points have drifted to Chicago, hoping to find openings that prevail in normal times.

Figures fix the number of this element at 2500, leaving 15,000 who are legitimately connected here by employment antedating and existing during the influx of colored labor from the South to fill the gaps in essential industries occasioned by the war.

**SOUTH SEEKS NEGROES.**

The South, which never has yielded its colored labor gracefully, is taking advantage of present conditions to recover its lost sections, but there is little disposition on the part of negroes to return. Agents from the South have been haunting while sweet, to assume some of the responsibilities of the depression looking to better times; a counterbalance southern racial diadems tages with northern opportunities, it would appear about as likely for the negroes to recross the Ohio River, as it was for the children of Israel to turn back to the Red Sea and Egypt.

place in the rear of his office, in which the unemployed may find a warm stove, newspapers, pipes and tobacco.

As the labor agent and his colored satellite entered the office, streets of a chorus with a banjo accompaniment issued from the rear room.

"I am looking for some black boys to go back down South," he confided to the manager. "I hear some of them singing back there, and it sounds like home. I bet I can get four or five of them. May I go back where they're singing?"

"Sure," replied the obliging manager, "but do you know what they are singing?"

"No, but it sounds like a good old southern tune."

"Well," suggested the manager, "maybe you'd better listen."

He did listen and this is what he heard:

"Long gone from Kentucky  
Long gone, ain't I lucky?  
Long gone, that's what I mean—  
This nigger's long gone from Bowling Green."

**SAVINGS ACCOUNTS INTACT.**

The surveys show that the savings accounts of the colored people on the south side are largely intact, thermometers of prosperity have not materially risen since the labor slump, but in most cases they are holding par. One south-side bank recently opened for business, and in its first day's deposits more than \$200,000 almost entirely from colored people.

Investigators from various organizations report a noticeable disappearance of expensive furniture from the apartment occupied by the colored working classes on the South Side. Whether this has been sold or allowed to refund itself at the installment house is a question. At any rate this would indicate an inclination to meet changed conditions.

South side loan banks are receiving sundry trinketed valuables in excess of any season since the advent of war prosperity, but even the amounts loaned in this manner have not been large in view of existing conditions.

With many evidences of the disposition of the new labor to weather the storm and accept the existing bitter along with the erstwhile sweet, to assume some of the responsibilities of the depression looking to better times; a counterbalance southern racial diadems tages with northern opportunities, it would appear about as likely for the negroes to recross the Ohio River, as it was for the children of Israel to turn back to the Red Sea and Egypt.

**MUST DEVELOP FLYING TO RETAIN POSITION.**

**NEGLECT WILL PUT US IN POWER OF GREAT BRITAIN, ADMIRAL DECLARES.**

(EXCLUSIVE DISPATCH.)

WASHINGTON, Feb. 23.—Unless the United States is willing to place itself within the power of Great Britain it must develop naval aviation, is the opinion of Rear-Admiral Bradley A. Fiske, who has expressed his view on naval aeronautics in a letter addressed to the Aero Club of America.

"Briefly," said Admiral Fiske, "it is absolutely necessary to develop naval aviation and provide modern airplane carriers, unless we are willing to place ourselves in the power of the greatest naval and aeronautical nation."

"That nation is now the best friend we have and we are no reason whatever for having a war with her. But, in the same way that no man would like to be in the power of his best friend, we ought not to like to be in the power of that nation."

"As conditions are now, her navy is so much more powerful than ours, especially in possessing aerial craft of offensive effectiveness and a personnel trained to use them, that, in case our interests or policies should clash, we should either have to give her way without fighting, or else be whipped in battle and leave her free to take her own way afterward unhindered."

"The plain truth is that we have simply been beaten by superior brains."

**UNPREPAREDNESS COST MANY AMERICAN LIVES.**

**ONE HUNDRED THOUSAND NEEDLESSLY KILLED, SAYS GEN. MENOHER.**

(EXCLUSIVE DISPATCH.)

WASHINGTON, Feb. 23.—Unpreparedness cost the United States a hundred thousand lives in the World War, Maj.-Gen. Charles T. Menoher, who commanded the Rainbow Division of France, told a gathering of his former command here. It was a reunion to celebrate the third anniversary of the division's first entrance to the first-line trenches in the Lunerville sector.

"If the nation had been properly prepared in 1916," said Gen. Menoher to the doughboys who grouped about him in an improvised dugout, "you and I would not have had the experiences we did in the A.E.F., and America would not have left 100,000 dead in France, nor had to bind up the wounds of 200,000 more."

"Unpreparedness costs something as you go along, but it is worth it in the end."

**PARTICIPATION PLAN SCORED BY EMPLOYERS.**

(BY CABLE AND ASSOCIATED PRESS.)

MILAN, Feb. 23.—Owners of the metal plants in this region met today to discuss the bill to be presented to Parliament by the government, providing for participation of the workmen in the management of industrial plants. Most of the owners opposed any participation in management by the men, and a resolution was adopted asking Parliament to reject the bill.

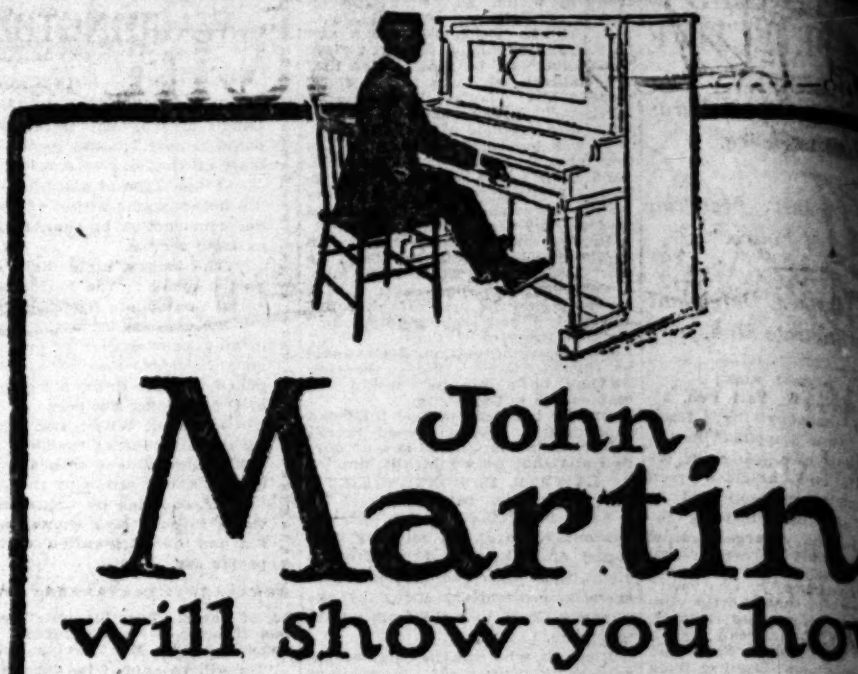

If the bill passed Parliament, it was declared, the owners are determined to close their factories.

**CUBAN RAW SUGAR PLACED ON MARKET.**

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 23.—R. B. Hawley, president of the Cuban-American Sugar Company, announced today that the Cuban Sugar Plantation Committee had made its first offerings of the raw product to the American trade.

The price fixed was 4 3/4-cents a pound, cost and 4 1/2-cents a pound, States ports and 4 1/2-cents a pound, f.o.b. vessels in Cuban ports. These offerings, he said, met with ready acceptance here and in Canada.

**John Martin**

will show you how

Mr. Martin, who has the distinction of being the only person in the world who receives a large sum of money for playing an instrument that "anyone can play," will personally demonstrate next Friday evening at the Barnes Music Company how easy it is to play the Gulbransen Player-Piano with every shade of expression.

Thereafter, his method of instruction will be available to anyone through the Martin Method Player Rolls, which now go with every Gulbransen Player-Piano.

There is a great deal to be gained from this lecture-recital by anyone interested in music.

When you hear a pianist of ability play on an ordinary piano, you admire the splendid art of the performer, but it seems a thing far removed from your own sphere of possible accomplishment. You don't seriously think of doing it yourself. You know that years of study and practice are required to become a skilled pianist through the medium of the keyboard.

But when you hear John Martin play the Gulbransen Friday evening, you are at liberty to do all the dreaming you wish about being able to do the same thing. For weeks of study instead of years will make a musician of you if you have a Gulbransen and the Martin Method Instruction Rolls.

Hear this remarkable man who occupies such a unique position in the music world.

(EXC)

CHICAGO, Feb. 23.—Tomorrow day for the Chicago Cubs, new manager Evers, accompanied by a squad of players, departs at 11:15 a.m. for the Santa Fe for the trip to Southern California. They will arrive at Santa Fe Sunday afternoon, and morning the grind to Los Angeles for the coming championship will begin.

**MOVE TO CAMP.**

After a week of work on the squad will move to the training camp at Pasadena. It will be joined by the rest of the squad, which will arrive at Santa Fe on March 2. Following that, the nearly five weeks of pre-season work will begin. The Cubs will play their first game against the St. Louis Cardinals on April 12.

**A BIG PARTY.**

Manager Evers, and young son, Coach and Doyle, Trainer Brady and a number of newspaper men there, many three players in the squad, will be accompanied by Manager Evers' players who will leave Santa Fe on March 2. They are Pitcher George Lincoln Bailey, James Jones, Alex Freeman, J. Harry Weaver, Earl McFrank Myers, Catchers Bill and Tom Daly, Manager Evers and Trainer Brady and Coach.

**TO JOIN TEAM.**

Chicago City late tomorrow will be increased by Pitcher and Coach and by Trainer Alexander, Jim Val and Fred Martin, pitchers. The Cubs will play their first game against the St. Louis Cardinals on April 12.

## Engines kept running smoothly for 50,000 miles

WHEN the time comes to sell the old car—perhaps when you think that a new coat of paint will make it do—is the engine worth anything, or has it begun to wheeze like an old steamboat? That's the real question.

With proper lubrication any car should last for at least 50,000 miles. 90% of all engine troubles are due to inferior oil. Under the terrific heat of the engine—200° to 1000° F.—ordinary oil forms great quantities of black sediment. Bearings pound, cylinders score.

Sediment is reduced 86% when you use Vedol, the lubricant that resists heat. (See the two bottles below.) With Vedol in the engine, most troubles are prevented.

Have your engine flushed out. Put in Vedol. Keep your car running for its full life of 50,000 miles or more. Leading dealers have Vedol in stock.

Vedol lubricants for every part of the car

Use Vedol lubricants for all parts of the car: VEDOL for the engine (light, medium, heavy, medium heavy, extra heavy); for the differential and transmission, VEDOL TRANS-GEAR OIL or GEAR COMPOUND; for the tractor and truck, WORM DRIVE OIL; GRAPHITE GREASE; CUP GREASE.

## POP IT INTO THE BLUES.

(EXCLUSIVE DISPATCH.)

TRINITY N. J. Feb. 23.—There will be plenty of Sunday golf and no blue ordinance on the books in the new village of Tavistock, which has its city hall, fire bucket, and council chamber around the nineteenth hole of the Tavistock Country Club in Camden county.

stock golf links as the boundaries of a new village of Tavistock. The bill passed both houses, and was signed by Gov. Edwards. The municipal officers of the town probably will include several Sunday golfers.

The only player on Tris Speaker's Cleveland team who has failed to sign for 1921 is John Wagner, an infielder bought from the Tulsa club of the Western League. All the veterans expressed perfect satisfaction over the terms submitted by President Jim Dunn, a square shooter from way back.

## BENGALS BEGIN WORK MONDAY.

Chief Essick Orders Champs Out for Practice.

Killefer Will Inevitably Elsinore Camp on March 7.

Effort Will be Made to Curb the Forward Pass.

BY HARRY A. WILLIAMS.

Summer weather arrived almost simultaneously with the drop in the price of soft and cooling drinks, thus demonstrating again the great harmony of nature.

The day dawned so brightly that Bill Essick feared that he, himself, might be bawling in the beam. He thought that, like Rip Van Winkle, he might have overslept, and that it was midsummer with half the season played. Bill grabbed for a morning paper, but found no percentage table. Then he saved the household calendar the up and down.

This put him right as to the date, and also caused him to move spring training up a couple of days closer. Mr. Essick simply can't bear to see such weather as this going to waste. He declared all his stands in on a large workout to be held at Vernon next Monday. This will be the start of the spring grind for the "Tigers," giving them the edge on the main Angel squad of a week. But the jump won't be as long as it sounds, for seven of the club members of the Vernon club will not report until a week or so later.

President Powers has instructed Red Killefer to have the Angel battery men in Elsinore by March 1, with the main echelon to follow on March 7.

February 23 also will see considerable activity among the Chicago catchers and pitchers, who will arrive Sunday and the following day join Alexander and Vaughn at Catalina.

With approximately three hundred ballgame training in California, there will be a large amount of spring sap flowing.

True, some of these athletes will last only about long enough to get their first and last rubdown.

And the rookies sure are strong for the bone-rubbing and muscle-splashing stuff. Speaking of rookies, recalls one told me by Charley Dryden, concerning Rowdy Elliott, in his rookie days. Several years ago the Cubs were barnstorming their way up from the South, and met Birmingham in an exhibition game. Rowdy Elliott, the bat for the latter club, and so young that baseball rompers really looked appropriate on him.

Even at that immature age, Rowdy still had the whip which later carried him to the majors. In one particular inning he was gunning exceptionally well, and pegged out two Cubs stealing.

"There's good the old souper," moaned Rowdy, as he walked back to the bench, feeling of his throwing arm. Rowdy probably believed his arm was cracking under the strain, but in reality was merely repeating what he had picked up from some veteran. The average baseball youngster, likes to imagine himself afflicted with those ills to which the older and more celebrated athletes is heir.

An effort will be made to curb the forward pass when the football committee convenes in New York next month. Incidentally, the West and Central West have developed this play more highly than the East, and this is one reason why the supremacy of the latter is not as generally conceded as formerly.

Should they eliminate this play entirely, California, which has perfected the pass to point never before attained in the college ranks, would continue to be a giant on the gridiron. There is even a reason to believe the Bears could cope with the East at its own game.

Straight football was regarded as California's strongest point until the Bears suddenly revealed their brilliant open attack on New Years.

Regardless of any changes made in the rules, the West will continue to produce formidable football machines. The University of California particularly has the enrollment, while a number of Coast eleven seem to be as masterfully coached as those along the Atlantic seaboard.

Bicycle records were under discussion at the bowl yesterday. In Europe the mile behind pace has been ridden in more than 10 seconds under the minute. For the annual race, however, was the achievement of a rider "over there" actually covering sixty-five miles in one hour behind pace.

The bike game is developing an early crop of bleachers with Al Halstead of New York and Fred Keefe of Australia were kicking the peddle in a match race.

"Hey, do you fellows get a kick out of that?" piped a shrill-voiced youngster at the riders, who joined in the general laugh.

Halstead and Keefe are veterans of the six-day game.

"Don't weaken Al, only five more days," yelled a fan as the riders reached the other side of the track. Charley Keppen, who is prepping himself for a match race at the bowl with John De Palma, paused in his training long enough to relate some of his troubles as a general information bureau.

A lady called Keppen up on the phone at the club Sunday morning. "Can you tell me where they play polo today?" she asked.

Keppen wasn't sure what kind of polo she meant.

"Do you mean equestrian polo?" he queried.

"Oh, no, no," chirped the lady. "I mean the kind they play at Midwick."

YOUNG HOGS ALL HONORS IN MEET.

(SPECIAL CORRESPONDENCE.)

REDLANDS, Feb. 23.—The Y.M.C.A. of Redlands, Riverside and San Bernardino had a volley ball round robin here last night, and Redlands won the title.

The local team defeated Riverside in two straight games. The first was 15 to 12, the second 15 to 3.

Redlands beat the best of the unions in two, 15 to 14 and 15 to 3. Riverside defeated San Bernardino in two games, 15 to 8 and 15 to 7.

The Redlands team were Thomas Ogden, Prof. S. Guy Jones, R. A. Covington, J. A. Brewster, Karl Gramie and Guy Dawey.

WIRE FOR DAVIS.

A telegram was sent Travis Davis at the sporting department of The Times.

## AUTO THIEVES GRAB ELEVEN.

The following autos were stolen from the streets of Los Angeles yesterday: Dodge, 1920 touring, black, engine number 463773; Buick, 1919 roadster, blue, Arizona 29047; Dodge, 1919 touring, blue, 147599; Ford, 1920 touring, black, 524423; Mitchell, 1918 touring, black, 216119; Cadillac, 1918 touring, blue, 508533; Buick, 1917 touring, blue, 14567; Hudson, 1917 speedster, green, 121577; Chevrolet, 1917 touring, black, 293959; Dodge, 1920 roadster, black, 35276, and Anderson roadster, green, 514016. Anyone seeing any of these cars will please notify the auto theft bureau of the Auto Club of Southern California, or police headquarters.

## SWIMMING FEST PROMISES KICK.

(Continued from First Page.)

handicap for club juniors, with eight entries; 100-yard handicap for men, three; ten entries; and a relay exhibition diving by Miss Janet Ford, Miss Aileen Allen, Clyde Swendsen, and the girls of the Los Angeles Summer and Leland Tipton. The wind-up will be a men's obstacle race introducing novel and thrilling stunts. The meet is public and the seat sale reported good.

## MAJOR LEAGUERS TO TACKLE SOX AGAIN.

JOE PIRONE ARRANGES FOR FIVE-GAME SERIES BEGINNING SATURDAY.

Joe Pirone, manager of the Major League All-Stars, announced last night that he had accepted the offer of the Los Angeles White Sox club for a series of games to be played at the White Sox park, East Fourth and Anderson streets, beginning Saturday and Sunday afternoons.

A series of five games was arranged. Immediately after the final game the big leaguers will leave for the Coast to play the Los Angeles Angels. Owner Doc Anderson and Manager Lonnie Goodwin of the Sox and Joe Pirone, owner and manager of the major leaguers, met last night and decided to change the base umpire. Len Shores was to be named, but the major league and Bert Niehoff, Carter Elliott, Ray Ketting and "Sloppy" Thurston from the Coast League.

Joe Pirone will, in all probability, have the following players: Irish and Bob Meusel, Max Carey, Tony Boeckel, Chat Thomas, and a catcher, who is yet to be named, are from the major league and Bert Niehoff, Carter Elliott, Ray Ketting and "Sloppy" Thurston from the Coast League.

## LINCOLN HIGH TOO GODD FOR PASADENA.

Lincoln High continued its untamed career on the cinders yesterday by annihilating Pasadena in a dual meet by the handsome and up-lifting score of 95 to 18. The Millionaires were unable to push the Reddippers to any extent, the youngest member of the Horrell family scoring the only first place in the meet for Pasadena when he heaved the four-pound pie pan 97 ft. 5 in. Tommy Davis's colored flyers galloped into first and second places in the sprints as usual and Huston put up a splendid performance, winning both hurdles.

*fair prices*

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page shows the binding of the book, with some stitching visible. There is no text or other markings on the page.

## A Far-Famed Food

"Shredded Wheat Biscuit" is the popular cereal food on millions of breakfast tables. The parent company and original factory are at Niagara Falls, N. Y. The vast Pacific Coast demand for shredded wheat products necessitated a big factory at Oakland, Cal.

N. A. Perley, with headquarters in the Haas Bldg., Los Angeles, is General Sales Agent for California, Arizona and Nevada. In the selection of office equipment, the furnishings and characteristic Service of Pacific Desk Company proved equally satisfactory.

And "Service" means that intangible factor which raises commercial dealings to a higher plane, and cements business relationships. You will find that this spirit pervades this entire organization in its new home.

Keep Your Blood Pure  
Nature Will Do the Rest

Did you know that ninety per cent of all human ailments depend upon the condition of the blood?

Nature gives her warnings in various unmistakable ways, so that when the appetite fails, and you become weak and listless and a general run-down condition seems to take possession of the whole body, it is an unfailing sign that impurities will steadily accumulate until your general health will be seriously affected.

You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the

blood supply pure and robust. For this purpose, no remedy can equal S. S. S., the fine old blood purifier that has been in constant use for more than fifty years.

Being made from the roots and herbs of the forests, it is purely vegetable, and contains no mineral substance.

Get a bottle of S. S. S. at your drug store today, and note how promptly it builds up the appetite and gives new strength and vitality.

Write for free literature and medical advice to Chief Medical Adviser, S. S. S. Laboratory, Atlanta, Ga.—(Advertisement)

CHARGES SCHEME  
TO BAR FRIENDS.

Mrs. Mohn's Lawyer Springs 'Tingley Case Surprise.

Says Other Side Has Used Subpoenas Wrongfully.

Not to Testify but to Keep Them Out of Court?

(SPECIAL DISPATCH)

SAN DIEGO, Feb. 23.—A surprise was sprung in the trial of the \$200,000 damage suit for alienation of affections brought by Mrs. Irene Mohn against Mrs. Katherine Tingley, when C. C. Crouch, attorney for Mrs. Mohn, charged that persons were being subpoenaed by Mrs. Tingley's forces, not to obtain testimony, but to keep them out of the courtroom. Mr. Crouch held that the idea of the other side was to bar out friends of Mrs. Mohn. "I believe when they try a suit, they have a right to have their friends by them, just as Mrs. Tingley has a right to bring in all her uniformed followers," he said.

After asking that the jury be excused while he explained to the court, the attorney for the plaintiff said that on Friday an incident had occurred in which Mrs. Tingley walked back to where a lady sat back of counsel with a vacant seat beside her. Mrs. Tingley said: "This is my seat," and when the woman did not move, Mrs. Tingley said, according to Mr. Crouch, "Did you hear what I said?"

RAILY REFUSED. When the woman insisted upon retaining the seat, Mrs. Tingley said she would have the bailiff put the woman out, according to the lawyer, and then asked the bailiff to have the woman give up the seat. He informed her he had no right to put the other woman out of the courtroom, especially as there was no vacant chair for Mrs. Tingley. Mr. Crouch continued.

The attorney said that Mrs. Tingley then told one of the Point Loma uniformed thespians to "get her name," pointing to the woman. On Saturday, Mrs. Mary Brun, the woman in question, and Mrs. A. Banney, who was with her, were subpoenaed to attend the trial. The thespians were told by the uniformed members of the Theosophical Society attending the trial. This morning they were told by the thespians not to remain in the courtroom as they were to be witnesses. Mr. Crouch said, adding that he believed the subpoenas were issued to keep the friends of Mrs. Tingley from her side in the trial, and that it was an abuse of the powers of the court.

EXCLUSION DROPPED. Judge Carey ruled that if the persons subpoenaed were to be used as witnesses, they must be excluded, otherwise not. Iverson Harris, counsel for Mrs. Tingley, then said he believed the subpoenas did not have to be served by a deputy sheriff, but he did not insist that the two women be excluded.

Much of the day was taken up with more testimony of Dr. Mohn who was called by Mrs. Tingley. He testified of the sending of Dr. Wood from the Theosophical Society to San Francisco by Mrs. Tingley to attend Miss Isabelle O'Neal, the daughter of Mrs. Mohn, who was ill. He told of the gratitude of Mrs. Mohn to Mrs. Tingley, and said that as they left Mrs. Tingley's office Mrs. Mohn thanked her and kissed her on the cheek.

A long letter was read to the jury written by Dr. Mohn to his wife and daughter in San Francisco, in which he addressed them as "Dear People."

The letter told of the home life and of a retraction which had been made on the front page of an Oakland paper.

Two others were doing the same, the letter said, and that three more were to be heard from.

SERIOUS CONDITIONS IN CROPS RELATED.

SECRETARY MEREDITH SPEAKS AND POINTS OUT DEPARTMENT WORKS.

(BY A. P. NIGHT WIRE.)

CINCINNATI, Feb. 23.—Secretary of Agriculture Meredith today, in addresses to business men and farmers, pointed out that the agricultural situation was serious, stating that although the farmers produced the greatest crop in history in 1920, it was worth \$5,000,000,000 less than the 1919 crop.

He urged marketing on credit; regulation of marketing machinery to prevent sharp practices; and spoke of the possibilities of short time credits. He also advocated higher prices for farm products.

In reciting the achievements of his department, he said that it spent \$20,000 to introduce rice growing in California and the crop was valued at \$21,000,000, and that from the \$40,000 expended for the introduction of Egyptian wheat in the arid Southwest, a crop of \$20,000,000 developed.

To classify Oregon Land Grants.

(BY A. P. DAY WIRE.)

SALEM (Or.) Feb. 23.—The Oregon State Land Board was directed today to co-operate with the Federal government in the cruising and classifying of Oregon and California land grants. In a resolution adopted today by the State Senate.

GOVERNOR PLEADS FOR BERGDOLL KIDNAPERS.

(BY A. P. NIGHT WIRE.)

DENVER, Feb. 23.—Gov. Shoup of Colorado today wrote Secretary of State Coghlan requesting he use his offices to insure the immediate release of Frank Zimmer and Charles Keuff, American prisoners in Germany for attempting to capture Grover C. Bergdoll, wanted in this country on charges of evading the selective draft.

Sir Gilbert Parker Replies.

(BY A. P. DAY WIRE.)

SANTA ROSA, Feb. 23.—Sir Gilbert Parker, novelist, who was taken slightly ill here yesterday, recovered today and departed for Sacramento.

## FLAME THROWERS AND GIRLS FIGHT SNOW.

War Department Helms New York Out of Its Predicament.

Winter's Troubles Come at Last.

America's eastern metropolis has been snowbound for a few days, and appeals were made to Uncle Sam to help dig itself out. The War Department sent several flame throwers such as were used in the World War, which are considered excellent to clear streets and car tracks of the huge piles of snow that fell and drifted, stopping all traffic. Twenty thousand men were put to work with shovels to help in the battle against old King Winter, but this number was insufficient and more could not be found. Hundreds of girls then volunteered and gave a decided lift to the street-cleaning department. They helped make sidewalks passable.

HIT BRITISH STAND ON UNEMPLOYMENT.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, Feb. 23.—The Labor party and the trade union national congress at a conference today on unemployment, adopted a resolution declaring the government's policy of extending the unemployment insurance act was "lamentable and inadequate to meet the present situation."

The government's action "bears little relation to the human suffering," the resolution added.

BRITISH AMBASSADOR BACK IN WASHINGTON.

(BY A. P. DAY WIRE.)

WASHINGTON, Feb. 23.—Sir Auckland Geddes, the British Ambassador, was back in Washington today after personal conferences with Foreign Office officials in London prepared to take up with the new administration pending negotiations between this country and Great Britain.

The Ambassador was summoned to London by Premier Lloyd George last month and among important diplomatic subjects known to have been discussed were far eastern affairs, the oil question, disposition of the former German cables, including the Japanese control in the island of Yap, and the funding of the British debt to the United States.

-a noted judge said

"Only fools fail to make Wills"

During his long practice as a lawyer this jurist witnessed the consuming of hundreds of hard-earned estates by litigation because the owners had neglected that plain business step—the making of a Will.

The man who fails to have the most important document of his life prepared is not only a negligent and absolutely unkind.

Save your estate for your loved ones—consult a lawyer and have a Will drawn today.

If you want absolute assurance that your will will be carried out to the letter—name Title Insurance and Trust Company as your executor.

Write or call for our free illustrated booklet, "Will."

Pantaloette Frock of Gray Taffeta. ⑧

Principal New Features of Season's Fashions.

Principal New Features of Season's Fashions.

CONTRADICTORY as the moods of budding maidenhood, alluring as the eyes of youth, distracting in elusive loveliness, the Modes of Spring!

Nearly has one dominant feature been envisioned by the beholder as that feature is superseded by one more fascinating.

No sooner has the searcher after the latest fad in clothes concluded that skirts are to be longer than she meets with a skirt more brief than any shown heretofore. When she has settled in her mind that the very full and circular is to be the dictum of the Mode, she beholds an aproned straight-line silhouette which is beyond dispute in its correctness, directly that she has decided to discard the close-fitting subskirt in favor of what was once its tunic, she is confronted by a model by a leading couturier—dictator, the clinging lower skirt of which encloses it quite as much as does its skirted and corded top-skirt. In wraps, it is the same. The claim to first place, set up by the full-skirted cape, is disputed by that of the double-tiered or multiple-ruffled circular affair; knitted wool outfits.

The woven material or the reverse, in seasonal modes; jaunty jackets contrast the ascendancy of both and the sports suit—blended, sweated or polo coated—lays claim to equal favor.

Materials not heretofore on speaking terms are yoked together; weaves known only to household use become artichokes of dress; millinery turns commonplace fabric to novel and startling; the head in their unheard-of unions and hitherto unthought-of harmonies.

The outcome is: Individual choice of a wider scope than heretofore permitted in the selection of attire. Whether one concludes to be strictly tailored for the street, or clad in sports wear, to adopt the taffeta regime for afternoon clothes; to outstand stiffly in elegant combined with silk for evening; to walk slinkily in georgette or clinging lace of wondrous dyes; to be French courtly in luxurious brocades, or very English in homespun or tweeds—the choice is for the thoughtful, the clothes-wise woman.

There is really no excuse for any girl or woman not being beautiful or at least distinguished, since the selection is so generously accorded to herself. One may quite literally "thin" clothes," as mystics have declared we all shall do in the near-by hereafter.

The united opening today will reveal the liberal possibilities of the season's modes. Windows will claim to the welcoming eye the new and beautiful in clothes and, inside, stores and shops, displays both practical and wantable will be shown. In some places living models will don garments upon request and there will be elsewhere style promenades at stated hours.

**READY TO DRAWN.**

No. 1. A lady, fraught with the charm of the 4-year-old daughter, whose presence in the house makes perpetual sunshine, the be-ruffled frock of organza is worn above equally be-ruffled bloomers which reach to the tiny knee. Double-faced satin ribbon, in two pastel tints, forms the "feminine" and the sleeves pause at the dimpled elbow.

No. 2. The fabric of this same-colored taffeta dance frock blossoms into roses whose petals are hand-painted in silver. The scalloping of the lower edge of the skirt is new and the puffed trimming singularly quaint. Taffeta roses encrust one side of the décolletage and narrow bands of antique silver intersperse the puffings around the rather full sleeves. Bands of antique silver encircle the collar.

No. 3. Dancing into favor comes the taffeta frock for misses wear. The very full skirt is enriched by a heavily wrought design in braid and the low waistline is characteristic of the new fashions. The hat is distinguished by the unusual placing of the coque, feathers, the sole trimming of the hat, which is a Milan braid in platinum gray.

No. 4. Of heavy sports weaves in gold, the three-piece country club suit sounds a new note in sports-wear. The design is coral-white beads set in a practically all over the coat of duvetyne and forms a pattern upon the underdress, which is of heavy white sports crepe, the same fabric used to line the jacket. With this is shown a sports hat of faith ribbon and straw, with a cockade and streamers of the same.

No. 5. A smart little suit of Poiret (twill in navy blue, disperses the full skirt back and the heavily be-ruffled skirt, a notable feature of the season's mode. The skirt is not too want to comfort with the jacket and the embroidery upon neck is in a bold design, with coloring borrowed from the Czechoslovak. The hat chooses to accompany this jaunty creation in taffeta, the crown set round with anti-heads of steel and

comes boldly forth as a wide grin, forming a smashing bow on one hip.

**BLACKSTONE'S.**

Offset by vines and artistic baskets of cut flowers, the merchandising housed in Blackstone's windows is expressive of the season's newest and most exclusive modes. A special showing of three-piece suits for dressy and for country club wear speaks in glowing terms of duvetyne, picoties and other popular fabrics, telling the most recent choice of Mrs. La Mode. This house has just completed its twenty-fifth anniversary and the place is springing interesting offerings in high-class merchandise. Garments will be modeled upon request, during the opening day and throughout the week.

**JACOBY BROTHERS.**

Windows at Jacoby Brothers wear a springtime atmosphere by reason of spring merchandise, which is further accented by springtime blossoms. The latest of spring millinery, suits for street and afternoon, smart little frocks of taffeta and satin, and of the new weaves in wool, wraps built along lines that are fraught

with charm and especially observable garments for small girls, each a triumph of adaptability, render these windows instructive in the season's smart and practical attire.

**THE BROADWAY.**

The Broadway Department Store, concerned just now with its silver jubilee, the celebration of its twenty-fifth opening, occurring on the day of the united opening, has merged the two events and as a result the big store bristles with bargains as well as with lovely decorative effects. To walk through the spacious aisles of this store today is to imagine yourself transported to a peach orchard in full bloom, for the branches which bend low upon all sides are rosy with Spring's first burgeoning and opening day almost scent the faint delicious fragrance, so natural is the effect. The windows are arranged with equal art and the exhibition of merchandise, although very practical and made more than usually desirable by reason of special prices, is wrought out with consummate taste.

**COULTER'S, ON BROADWAY.**

Here the offerings of practical, moderate priced merchandise are emphasized for the occasion, although few decorative effects are put to use.

**SWEET SIXTEEN.**

The "figure sixteen," always the price slogan at this shop, remains in effect today and is even broadened in scope by the exhibition of new numbers brought forth for the opening of the season.

**BON TON.**

Moderate priced ready-to-wear and attractive spring millinery are featured at the Bon Ton. Springtime flowers, reflected in the hats exhibited, serve to offset the display.

**WELLS.**

The season's favorite color, gray, here prevails in the window finish, carpeting and enameled woodwork, the faultless taste of which serves as a setting for the newest merchandise. Among the striking garments noted none is more unforgettable than the knitted cape for country club wear. Of cream color, this imported wrap is bordered in violet-colored angora, the same effect completing the fur smart muffing collar. Here also are shown daytime dresses in modish materials, including Canton crepe, taffeta and silks of various popular weaves. The window housing sports wear is decorated in greenery, grasses, vines, ferns and palms, while another is made gay with potted blossoming plants interspersed with green. At the Sixth-street entrance, blossoms, hand-made lingerie and accessories are offset by vines and ferns. The beauty of the store throughout is sufficiently decorative in itself, without enhancement, and constantly arriving merchandise, lures one to this shop the slogan of which is "Where style is inexpensive."

**FIFTH STREET STORE.**

Unable to forego the February Feature Sale, which is now in progress, the Fifth Street Store has made no attempt at decoration, but continues its daily bargain offerings throughout the week.

**HAMBURGERS.**

The salient and oft-repeated feature throughout the Hamburgers windows is a floral curtain or drape, serving as a pleasing background and carried out in colors varying to correspond to the merchandise. In one window on Broadway orchid and white is the theme. Here diaphanous afternoon dresses, with millinery and accessories to match, attract attention. One window, housing sports wear, is carried out in jade and white; one in apricot and gray, another in black and white; coral pink sounds the high note in jade and white; one in apricot and gray, another in black and white; French blue and gray is elsewhere shown; a practical display of navy and American Beauty holds attention to the Hill-street windows. The corner case, at Eighth and Broadway is centered by a huge hat box in black and yellow, the tilted lid of which reveals a seated figure, clad

### NONSTOP TO NEW YORK.

Giant Airplane Finished Here for First Hop Clear Across America.

The Cloudster, a giant airplane capable of flying from Los Angeles to New York without a stop, is ready for trial flights here and will attempt the first nonstop transcontinental flight as soon as certain tests have been completed. The plane was designed and built in Los Angeles for David R. Davis, a local sportsman, by the Davis-Douglas Company of 429 Colyton street. From tip to tip, standing thirteen feet high and with a total length of thirty-five feet, the giant plane is the largest single engine machine in the country. It has a twelve-cylinder 400-horsepower Liberty engine which will drive the plane at a speed of approximately 110 miles an hour. With the huge tank which will be used on the transcontinental flight the plane carries 660 gallons of fuel, weighing more than two tons. This is sufficient fuel for a flight of thirty-six hours at cruising speed,

### ROSENHEIM TO FACE CHARGES.

Art Commissioner Takes Fee for Job Before Board.

Pledged Approval of Body of Which He is Secretary.

May Unseat and Cause Him to Be Prosecuted as Well.

Charges that Architect Alfred F. Rosenheim accepted a fee of \$254 for his services in connection with a transaction pending before the Municipal Art Commission, of which he is secretary, will be laid before Mayor Snyder this morning, Public Works Commissioner McGuire announced last evening. The fact that he had accepted the fee was admitted last evening by Mr. Rosenheim, who said that he saw nothing improper in his action, although the city charter in Section 34 specifically prohibits the participation financially, of a city official in a transaction pending before him, as an official. The charter further provides that upon conviction of such participation, a city official may be removed from office and prosecuted in the courts.

That in soliciting a fee, Mr. Rosenheim specifically stated in writing and over his signature, that he could prepare a design "that will meet with the approval of the Municipal Art Commission," is shown by a letter made public yesterday at the office of the Board of Public Works by Ray E. Lundy, representing the Italian Jewelry Company of 205 North Spring street. The company had applied on January 26, for a permit to erect on the sidewalk in front of its store an ornamental clock, and the Art Commission, under date of February 1, disapproved of the plans. Subsequently Mr. Lundy states and Mr. Rosenheim admits, Mr. Rosenheim was retained for a fee of \$254, to prepare plans. These plans were approved by the Art Commission at a special meeting held last Saturday morning in the Rosenheim's office. Mr. Rosenheim had "delivered the goods" as he had agreed to do in consideration of the \$254. The approval of the Municipal Art Commission is necessary for structures such as ornamental clocks built on city sidewalks.

The facts in the case came to light yesterday when Mr. Lundy appeared before the Board of Public Works with plans for the ornamental clock as approved by the Municipal Art Commission, and secured a permit from the board. Mr. Lundy was asked at the office of the commission, how it was that the approval of the Municipal Art Commission had been obtained after that body had, in a letter dated February 1, disapproved of the plans for the clock, said Mr. Lundy, who is the business representative of Arturo De Caro, owner of the Italian Jewelry Company. I went to Mr. Rosenheim and asked him for these

and that is how  
a \$12,000 or  
over and an enviable  
business connection  
was obtained by Wade's  
firm.

Were either of these  
salesmen to blame? Hard-  
ly. It was just another  
case of the order going the way of the  
most pleasing introduction. It happens  
every day—sometimes because of personal  
address, or again by virtue of well  
chosen stationery.

H. S. Crocker Company considers  
the preparation of distinctive and dis-  
tinctive letterheads on good quality pa-  
per so important that there is always at  
your disposal the services of expert de-  
signers and pressmen. The more you  
consider the Mr. Smiths of business  
life, the more you will appreciate that  
Crocker stationery is no trifling gar-  
ment but a business asset to com-  
mand respect for your salesmen and  
firm.

Remember, you write more often  
than you call personally.

Mrs. Norris Like New Person—Praises Tanlac.

"Anyone who suffers as I did can't do a better thing than take Tanlac," said Mrs. A. Norris, 123 North Kern St., Los Angeles.

"The past four years have been very bad for me. What little I ate disagreed with me and gas formed which almost choked me and I had palpitation of the heart so bad it really frightened me. I was so nervous I often lay awake half the night and the slightest trifles would annoy me terribly. I just felt so weak and worn out all the time that I could hardly do my housework. In spite of everything I did I kept getting worse and I was very blue and depressed."

"But after taking the second bottle of Tanlac I felt so much better I could hardly realize I was the same person. The medicine has done me so much good I don't know how to start to tell it all. Everything I eat agrees with me perfectly and it is astonishing how my appetite has increased. I sleep like a child, and get up feeling so refreshed and with that I can do my housework with ease. I am certainly glad of the opportunity to recommend Tanlac."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Stores.—(Advertisement.)

WORKING MAN  
NO BOLSHEVIST.Detroit Auto Maker Strong for  
the Open Shop.Pasadena Man Now Heads  
G.A.R. Organization.Wife Charges Husband With  
Wrecking Bank Account.

(LOCAL CORRESPONDENCE.)

PASADENA, Feb. 23.—"Insistence that the right to work is an inalienable right as to the right to quit animates the large employers of the country in their campaign for the open shop," said Hugo Chalmers, Detroit automobile manufacturer, in an interview here today on his arrival from the East to spend the remainder of the winter and spring.

"Employers are not trying to smash the workers nor their trade unions, but they insist upon the open-shop principle because it gives to all workers the right to work as well as the right to quit. Moreover, they are conceding everything to the unions, as has been the national policy for the last four years. But I anticipate no industrial war. I believe both employers and employees will be animated by a spirit of fairness and justice, profiting by the mistakes of the past. At heart the American worker is a fine chap and a good sport. Last fall and this winter in many eastern cities thousands of men were out of employment for many weeks, yet there were no disorders, no uprisings, no rioting, no Bolshevism. The Bolsheviks haven't been able to dent the American working man."

Automobile production in Detroit has now resumed to the extent of 40 to 50 per cent of normal production, said Mr. Chalmers, which will increase to 65 to 75 per cent this spring. Business generally is steadily recovering from the depression of the readjustment period.

HEADS G.A.R. DEPARTMENT. Owing to the death of Col. George D. Kellogg of Newcastle, Cal., commander of the Grand Army of the Republic for the Department of California and Nevada, George M. Burlingame of Pasadena has succeeded to that honor, by virtue of his office as senior vice-commander. He will hold office until the departmental encampment in Stockton in May. Mr. Burlingame served with Sixty-third Ohio Volunteer Infantry in the Civil War, and was in Gen. Sherman's celebrated march to the sea. He has long been prominent in G.A.R. affairs.

HUSBAND, MONEY GONE. Mrs. Rosa Rom Heydeberg's husband, Paul Heydeberg, withdrew \$1000 from their joint bank account, bought an auto and disappeared, according to Mrs. Heydeberg, who today swore to a complaint charging her missing husband with grand larceny. The warrant was issued by Judge Raymond G. Thompson in justice court, and the Constable and sheriff's offices have started a search for him to place him under arrest. Mrs. Heydeberg thinks he may have fled to Mexico. She charges that most of the money he withdrew from their joint account was left not by her former husband.

PLAY AWARD MADE. "Peter," a drama by Miss Marion Whitman, 57 North Fair Oaks avenue, has been declared by the judges the best submitted in the play contest held jointly by the Pasadena chapter of the Drama League and the Pasadena Community Playhouse Association. Sixteen full-length plays were judged in the final competition. Judges were Mrs. Alice C. D. Riley, Montague Glass and Prof. G. R. McMillin.

"Where Shall Adelaide Go?" by Francis M. Livingston of Santa Barbara was judged the best one-act play.

"Looks more like an oriental museum than a shop, and I never saw a more select assortment of Chinese art objects," remarked a New York buyer the first time she visited Grace Nicholson's Treasure House of Oriental Art at 48 N. Los Robles ave., directly across from Hotel Marland.—(Advertisement.)

## WORK TO WIN.

Head of Amusement Company Talks  
at Mass Meeting.

(LOCAL CORRESPONDENCE.)

VENICE, Feb. 23.—Thornton Kinney, president of the Abbot Kinney Amusement Company of Venice, speaking before 1000 Venetians at a mass meeting sponsored by the Chamber of Commerce last night, expressed a new policy concerning the Abbot Kinney Company, which is the strongest factor in Venice life.

"Heretofore, the Chamber of Commerce has been a sort of appendage to the Abbot Kinney Company," he declared. "I believe in the future it will be a creature of the public."

He said in addition: "To bring people to Venice, the residents who are here must invest capital, and capital is work. The two are interchangeable. The Chamber of Commerce is going to teach the people here the real service of investing labor."

The rally was held on the eve of the big membership drive which was launched today. One hundred and forty new members were taken in today. It is the belief of Chester Keel, new secretary, that the number will pass the 1000 mark before Saturday.

## ANOTHER GUSHER

Standard Oil Company Brings in  
Producer at the Beach.

(SPECIAL DISPATCH.)

SANTA ANA, Feb. 23.—Another Standard Oil Company gusher came in at Huntington Beach this afternoon, when Standard A-4 began flowing at an estimated production of 3000 barrels a day.

The well was brought in at 2120 feet. It is an offset of the Texaco well, located north of Reservoir Hill, near the Westminster road, and about fifty feet from the Texaco well.

The Texaco is now redrilling at a depth of 1700 feet. This makes the third well in the Huntington Beach field now flowing; the others being A-1 and A-2, all owned by the Standard Oil Company.

The big Bolea Chick well is being cleaned out preparatory to producing again. The Standard Surf and the Milejack well, near the Huntington Beach High School, were brought in last week but were not yet flowing. The oil mud and water shot thirty feet into the air before the valves were closed.

## MUST REVOKE BONDS.

(LOCAL CORRESPONDENCE.)

SAN LUIS OBISPO, Feb. 23.—The city of San Luis Obispo faces the prospect of holding another school bond election to pass on the \$275,000 recently voted by the citizens of that school district.

According to unofficial opinion of bond experts, the amount voted at the recent election is in excess of the percentage of the assessed valuation permitted by law. The matter is now being investigated and the present opinion is that another election must be held before valid bonds can be issued. The error is said to have been on the part of the school trustees in calling the election for bonds for an excessive sum.

SAN GABRIEL DAY  
AT ORANGE SHOW.THOUSANDS FILL BIG TENTS;  
CITRUS INSTITUTE EVENT  
OF IMPORTANCE.

(SPECIAL DISPATCH.)

SAN BERNARDINO, Feb. 23.—People from the San Gabriel Valley towns and cities flooded the Eleventh National Orange Show in large numbers today and rejoiced over their prize winning feature exhibit in the fruit tent. Pasadena was granted the distinction of a special day at the show and sent large delegations by train and automobile.

Among the distinguished visitors was former Gov. Frank O. Lowden of Illinois and his party. The Men's Glee Club of Pomona College entertained afternoon and evening with programs in the fruit tent in addition to the regular entertainment.

## VOTE SCHOOL BONDS.

(LOCAL CORRESPONDENCE.)

YORBA LINDA, Feb. 23.—Bonds to the amount of \$45,000 were voted for a new school building today. The bonds will provide funds

ment provided by vaudeville numbers and Gregory's Band.

Tomorrow will be Los Angeles county and State societies day and show officials are preparing to welcome hundreds from "the old home" States.

Considerable interest is being focused now by citrus fruit growers and others upon the approach of the citrus institute, held annually in connection with the show.

Programs of importance to the industry will be held Friday and Saturday at the Elks clubhouse with Dr. J. T. Barrett, head of citrus experiment station at Riverside, presiding. Fumigation and control of the black scale will be the principal topics Friday forenoon, while the afternoon will be devoted to the question of tractor power in citrus groves, citrus by-products and increased consumption of citrus fruits.

Mr. Wilder, president of the Butterick Publishing Company of New York, has arrived in California to spend a month at Hollow Hill Farm, his fine Guernsey ranch, near here. Mr. Wilder says that the people of California are fortunate as regards food prices, that food here is much cheaper than it is in New York.

"Economic conditions show some improvement," said Mr. Wilder, "but business is traveling close to the shore just now. It is a healthy thing, though, and I feel sure that things are going to come out in the best of shape."

Mr. Wilder was impressed by the amount of travel being done, especially travel from the East to the West.

## PUBLISHER OPTIMISTIC.

(LOCAL CORRESPONDENCE.)

REDLANDS, Feb. 23.—George W. Wilder, president of the Butterick Publishing Company of New York, has arrived in California to spend a month at Hollow Hill Farm, his fine Guernsey ranch, near here. Mr. Wilder says that the people of California are fortunate as regards food prices, that food here is much cheaper than it is in New York.

"Economic conditions show some improvement," said Mr. Wilder, "but business is traveling close to the shore just now. It is a healthy thing, though, and I feel sure that things are going to come out in the best of shape."

Mr. Wilder was impressed by the amount of travel being done, especially travel from the East to the West.

## TOO-MUCH-BOOZE CASE REOPENED.

Former Choir Boy Will Have  
Second Hearing Today.

Dismissed Once for Driving  
Car While Intoxicated.

Woman Teacher Badly Hurt  
at Smashup in December.

After a special investigation by  
Chief Dep. Dist. Atty. Doran, a sec-  
ond complaint has been issued  
against R. H. Maurer, former con-  
cert and choir singer, and he will  
be given a hearing tomorrow before  
Justice Baird, on a charge of driving  
an automobile while under the in-  
fluence of intoxicants. A previous  
hearing was given Maurer before  
Justice Brown and he was dis-  
charged.

Information furnished to Mr.  
Doran was that Maurer, while said  
to be under the influence of intoxi-  
cants, drove his automobile in such  
a manner along Washington Boul-  
vard, on December 26, that he ran  
down, and seriously injured Mrs.  
Katherine B. Beck of 2114 Cambridge  
street, a teacher in the city schools.  
In Maurer's first hearing, it de-  
veloped that no surgeon had ex-  
amined him to ascertain if he was  
under the influence of liquor, but  
several witnesses of the accident de-  
clared that he had acted in such a  
manner as to indicate that he was in-  
fluenced. Because of this failure,  
Dep. Dist. Atty. Hill criticized the  
arresting officers. Maurer was said

## HOME-SEEKERS FILLING CITY.

Chamber of Commerce Notes  
Unfurnished Rooms Are  
in Great Demand.

The great number of people  
seeking unfurnished rooms in  
Los Angeles indicates that  
home-makers rather than  
temporary visitors are filling  
the city, according to a state-  
ment issued yesterday by the  
housing department of the  
Chamber of Commerce.

The average house-hunter  
demands quarters unfurnished  
for less than \$50 and furnished  
houses or apartments for less  
than \$75 a month.

The housing department  
further announces that rents  
have dropped 10 to 15 per  
cent in the past few months  
and in many cases a larger de-  
crease has been noted.

to have been struck in the face by  
one of the witnesses to the accident.  
Maurer was at liberty for several  
weeks after his discharge but was  
re-arrested on the 11th inst. and re-  
leased on \$1000 bail for hearing to-  
morrow. He was formerly a choir  
boy in Chicago and toured the  
United States with Roney's Choir  
Singers.

CONCERT POSTPONED.  
Owing to the illness of Mrs. Jor-  
gina, the concert to be given this  
evening at Trinity Auditorium has  
been postponed, the future date to  
be announced shortly.

## FORWARDS STADIUM PLANS.

Court's Decision Makes the City-County  
Lease of Park Site Possible.

By a decision handed down yester-  
day by Department Two, District  
Court of Appeal, the immediate ac-  
quisition of what is known as the  
race course section of Exposition  
Park on lease by the city and coun-  
ty of Los Angeles for the erection of  
a stadium to accommodate 15,000  
people, is made possible. The opin-  
ion was written by Justice Works  
and concurred in by his associates,  
Justices Finlayson and Craig.

The style of the cases adjudicated  
was County of Los Angeles vs. Jona-  
than S. Dodge, chairman of the  
Board of Supervisors, and the City  
of Los Angeles vs. Meredith P. Snyder,  
Mayor of the city. The action was  
to compel the defendants, Messrs.  
Dodge and Snyder, to execute a cer-  
tain lease, on behalf of the city and  
the county. The suits were friendly  
ones to make definite the legal  
status of the stadium project.

The order of the court reads as fol-  
lows: "The demurrer to the peti-  
tion is overruled, and a peremptory  
writ of mandate will issue in each of  
the proceedings, the one requiring  
the respondent, chairman of the  
Board of Supervisors, and the other  
the Mayor of the city, to execute the  
proposed lease agreement."

What is known as the Sixth Dis-  
trict Agricultural Association owns  
the part of the Exposition Park  
tract affected by the proceedings.  
The stadium project is backed by  
the Community Development Asso-  
ciation, a private corporation orga-  
nized for the development of nondelegable  
public functions. All of these rea-  
sons are swept aside by the court.

Chief Deputy County Counsel  
Bishop prepared the case for sub-  
mission to the court.

## EASY FOR POR TO GET SH

Advises "Selling"  
of Harbor in East.

Standard, He Says

Local Men on I  
Night be Detriment.

Los Angeles may share in the  
benefit of the foreign  
trade by simply applying  
the principle of salubrious  
trade to the harbor. This  
N. Hurley, former  
captain of the Shipping Board,  
and at the Ambassador hotel  
here, Hurley is here with  
and will spend considerable  
time studying conditions in  
the harbor.

According to the man who  
has been in the harbor for  
the last 10 years, the  
city is now being a  
city to secure an alle-  
ance is now within the last  
year people in Los Angeles  
your country to the world  
without taking a  
from another port, you  
the shipping board is re-  
you and give you the ve-  
use. What you want  
sell your idea to the gov-  
ment.

Hurley declared that  
the harbor is a  
the war the local ship-  
yard of anything in the  
produced 25 per cent  
with the number of men  
and than any yard on  
the Coast, the former  
said.

NO BOARD MAN NEEDED  
This tends to show that  
the harbor is a  
any number that it can  
by simply employing the  
that have been used for  
it is not necessary for  
to have a representative  
board to secure a share  
he said, and even intima-  
it might be a detriment  
California man should  
be.

had better explain that  
"What I mean is that  
member refused to do  
by his own section and  
because he feared be-  
cause he was favoring  
the district unfairly."

Another idea that is some-  
times advanced is that  
the harbor can be estab-  
lished in "minutes," he continued.  
"Remember, we went out of  
business for fifty years a-  
gain. It will take some time to  
get a merchant fleet."

REGULAR AS TRAINS  
The thing for this country to  
do is to have a lesson the Ger-  
mans gave us. They found it  
was to establish a line of co-  
astal freight and passenger ships  
on a regular schedule, and  
based upon the sailing day  
and short time all freight  
was to be added and in-  
crease steamers. But these  
men were to be accurate as a  
rule. He said that even now  
that the future of the Shipping  
Board was discussed by the  
board, he said that even now  
to have on the board, a  
with former Gov. Lowe,  
in his statement that the  
is more efficient than a com-  
mission form of manage-  
ment. This may be acted upon  
he said.

Justifying the action of the  
Board during the war, he  
said that the ships were no  
a commercial need, but a  
emergency and the  
was the thing demanded.

SALES POSSIBLE  
There is something for the critics  
about," he said. "The ship-  
board was paid for at the time  
of the armistice, when  
the United States being in posses-  
sion of them, we were able to sell  
some of the goods to Europe at  
great prices."

We have not been able to trans-  
act business with Europe, we certainly  
not have sold it. Should you  
the cost of the ships from the  
merchandise, you  
and that we are still the  
by several millions of dol-  
lars.

passenger ships must be  
we have a well-balanced  
said. But with what  
regular trade routes are an-  
nounced, we can master the world  
foreign trade.

Hurley will remain at the Am-  
bassador hotel until the arrival here of  
the steamer, Golden State,  
which will leave this port for San  
Francisco on March 2. Mr. Hurley  
will go to the Bay City  
hotel and will later return  
to his home.

They returned to their  
homes on Sunday and Maple  
yesterday to get a package  
from H. J. Hathaway, 25  
of age, and J. A. White, 25  
of age, now in the City Jail  
on charges of attempted robbery.  
The two men were taken  
to the police station  
with several holdups  
into custody near their  
homes. Detectives Wallis  
and the police the two  
men to hold up and rob W. J.  
Hathaway, 25, of age, and  
then called off the two  
men and when they heard  
the shouting they heard  
the shouting the officers  
who have returned to  
work, entered the establish-  
ment at once telephoned  
the police and the two young  
men taken into custody about  
the charges.

Store Open All Day Saturdays

## Fifty-Six Windows of Fashion and Art

But few institutions are equipped with so many windows for display. Every year thousands enjoy the artistic Fashion Expositions as they are portrayed in our windows. This year the themes and motifs will prove most interesting—presenting in vivid tableaux the Fashions of Spring as they are correct in dress and detail.

**Hamburger's**  
ESTABLISHED 1881  
Home 10063 — PHONES — Bdwy. 1168

## Spring Exhibits the New in Every Section

The entire store is dressed in "party clothes." The Salons of Dress and the Second Floor become the points of interest for the apparel displays, while every aisle, every case and table throughout the store, contributes its share to the ensemble.

## The Spring Exposition—A Fete of Fashion and Art

Now all is in readiness for your viewing—the originations of inspired artists, the artcraft of weavers and dyers—gathered from the style centers of the world by our trained experts

The Exposition has, for the very basis of its thought, the idea of absolute acceptability of the Fashion to your needs—service, as we may render it, in the Art of Dress.

## Gloves of Fashion

Short sleeves and flare cuffs insist on the slip-on and long gloves for Spring wear. Happily so, for nothing is prettier than the glove that wrinkles about the wrist or smoothly covers the elbow. A fascinating innovation is the featuring of a pearl buckle at the back of an all-around strap in the case of some chambray slip-ons very closely resembling suedes.

## Long White Kid Gloves, 6.95

Fashioned of the very finest French kid and featured at this special price especially for the Fashion Exposition. They are the beautiful 16-button length and are shown in all sizes. (Hamburger's—Main Floor—Today)

## Novelty in Footwear

Novelty has, in times not beyond our memory, been the ruin of a pretty foot—but this year the introduction of novel straps across the instep and about the ankle goes far to make for grace and comfort in women's Spring pumps.

Well-chosen footwear of correct style and novelty comes to us from well-known bootmakers. Prices are more moderate, as evidenced in our groups of strapped pumps at 10.00 and 12.00.

## Brown Kid Oxfords at 6.85

Soft brown kid oxfords, very specially purchased for Fashion Exposition, featuring and representing an economy of decided merit. Military last. Full assortment of sizes. (Hamburger's—Second Floor—Today)

## The New Silk Hosiery

Fashion here states her preference in no uncertain terms. Frankly it is the very sheer, the very delicately woven silk stockings that have taken the meet name of "Chiffon" unto their frail beings. But though fine of texture, these transparent stockings are so cleverly woven as to give a deal of service entirely in keeping with one's sense of economy.

## Chiffon Silk Hosiery, 3.50

At this very moderate price we are featuring beautifully textured chiffon silk hosiery in a full assortment of sizes for women—in black, taupe and gray. (Hamburger's—Main Floor—Today)

## Neckwear of Favor

First of all, it is dainty and delightful! Laces and fine nets are of a certainty here to stay. We find them in filets, in guimpes, in vestees, in separate collars and in sets. A revival of the Buster Brown collar is pleasing and youthful and most acceptable because so generally becoming. Organdie also bids for a high place in favor—and from indications will easily attain it.

## Neckwear Featured at 3.95

This special group brings the newest in net, lace and organdie guimpes that Fashion has to offer—with a very obvious saving in the price. (Hamburger's—Main Floor—Today)

## Perfumes of Soft Scent

Quite as essential as any accessory is the choice of a soft, refreshing perfume to accent one's individuality. There are many odors from the famous perfumers of America and France that bring the very essence of Spring in their delicate fragrance. Perhaps you already have a favorite, but if not, there are many happy suggestions here, such as—

## Riviera Blossom, 1.50 Ounce

Moderate in cost—delightful in its refinement—a most fitting reflection of one's nicety of preference in the matter of perfumes. (Hamburger's—Main Floor—Today)

## Costume Necklaces

The very newest creation in costume necklaces is found in daintily hand painted galilith link chains, from which are suspended small hand carved amulets in the form of flowers. With the natural tints of the flowers for inspiration, they are happy spots of color against the costume.

Pearls, as always, are in good taste, being particularly attractive in combination with the gay colors of the soft gray of Springtime.

## Sea Garden Pearls, 10.00 to 150.00

Synthetic pearls, combining all the aristocracy of genuine Orientals with a democracy in price that makes beautiful selection possible for as little as 10.00.

(Hamburger's—Main Floor—Today)

"The year's at the Spring,  
Day's at the morn;

Morning's at seven  
The hillside's dew-pearled."

So sang the lovely heroine in "Pippa Passes" as she merrily tripped forth on her holiday—the free, live, vibrant soul of the Springtime echoing in her song.

It is this same rich, blithesome, jubilant spirit that the artists of Fashion have caught and embodied in the new styles for Spring.

## Spring Coats, Suits, Dresses

Art-Fashions we will call them. Fashions that are the subtle expression of grace, color, line, symphony—and yet which, in their genius-wrought loveliness suggest a most satisfying adaptability to present day service.

Colors, mystic and strong, play against softer, frailer tints, as the deep glory of a tropical sunset rests its shafts of color on the crest of a breaking wave.

There is a gladness, a freedom, an abandon about the Spring Fashions—a grace and simplicity that is art beyond words. There is a reminiscence of other periods that tempts the fancy—a pictorial ensemble in which every woman may find a type to interpret her individuality as she would have it expressed to her friends and associates.

Millinery Brings a Message  
of Radiant Splendor and Drapings That Softly Unfold

To catch and translate into words the grace of a swallow as it dips and darts—to name the colors of the rainbow, of Summer flowers and of a golden pheasant in the sun, were to paint in words the inimitable charm of the Spring Millinery!

From the ateliers of Paris and New York we have gathered originations—in our own workrooms we have created and adapted from these inspirations until the groups for each occasion of dress, sports and street wear present a completeness and distinctive fascination that delight the eye, even as they suggest becomingness.

The emphasis Paris places upon the side drapery is second only to the care with which every undulation, every angle, every length of line is studied.

For the colors, the fabrics, the captivating variations of the mode, let us just say "Come, they are more than exquisite."

(Hamburger's—Fashion Show—Second Floor Salons—Today)

The Exposition of Spring Modes is planned to offer a service beyond the mere formal display of the major fashions and the delightful details of accessory in dress.

We have so merchandised our stocks that in every department may be found newest merchandise at prices of economic appeal, so that the matter of selection invites immediate thought.

## Sweaters for Spring

Next to the more formal selections for the robe, the sweater comes in for consideration. Long ago elevated from the ranks of a utility garment, one of both beauty and service, the Spring sweater in silk or wool show a novelty of styling and a newness of design that assure them wide favor.

## Soft Wool Sweaters at 27.50

Fashioned of fine Shetland wool, they rely upon the softness of weave as well as upon certain novel styling, including angora, to make them distinctive and gather the most alluring sweaters in the history of Fashion. (Hamburger's—Second Floor—Today)

## New Costume Blouses

What a wealth of novel beauty is born! Color—ravishing and of Moorish splendor! Design—lyrically has Fashion combined colors—but so happy a result that it is hard to think back to those days when only one tint constituted the "shirt waist," and conscious of having missed the greatest beauty possible to blouses until this Spring.

With clever arrangements of the waistline they become part of the suit or skirt—truly a season of blouse confronts us!

## Many Blouses at 11.50

We have chosen this as a happy in-between price for a special featuring in honor of the Spring Exposition. Hand-made batistes and heavy crepes de chine are advantageously priced at 11.50. (Hamburger's—Second Floor—Today)

## The Proper Corset

With the Spring silhouette boyishly tight under, even greater emphasis must be placed upon proper corseting of the figure. Rather than lightly boned—extremely low shoulder—answer the question for the slender woman, there is greater plumpness to be modeled. Spring silhouette there are correct corsets—substantially boned and yet leaving a suppleness and dom such as the Spring fashions demand. Now ready to help you with the choice of your corset.

## Royal Regent Corsets at 4.95

A special Fashion Exposition group, made of pink brocade. Six models from which to choose—the figure. Most exceptional value. (Hamburger's—Second Floor—Today)

## New Silk Petticoats

Novelty ribbon and contrasting insets of silk—strong preferences of the Spring in petticoats—straight silhouette brings the all-jersey petticoat to the fore, while the skirts of circular design, finding the petticoats with taffeta and satin, much in favor. Very rich colorings here as in all things—a striking characteristic.

## Silk Jersey Petticoats, 11.50

In these the founces are pleated and the linings of ribbon and insets of contrasting color are a special feature of the Fashion Exposition. The values are prominently good. Others priced 11.50. (Hamburger's—Second Floor—Today)

## Lovely Silk Lingerie

Fashion lets her season's love of color shine in much lingerie in blue and orchid, as well as in pink.

To the beauty of the materials are added the simplicity of line most satisfying—there is much tailored, and where laces are used they are of the minutest care for refined and dainty effect. Spring brides and all women will be interested not only the pretty styles, but the price, which is low as lingerie of such pretty fascinations has ever been.

## Silk Envelope Chemise at 11.50

Quite elaborately trimmed or more demurely tailored, but in any event offering a very special feature of the Fashion Exposition. (Hamburger's—Second Floor—Today)

## And The New Coiffure

Even when one wears the hair quite close to the back from the face there is need of expertly and carefully attained the best results. As the puffs prove so eminently satisfactory that women who are generously blessed with hair, their convenient readiness to the coiffure of one's own tresses.

We have new and complete assortments of the finest and best—with trained experts to exactly matching your hair. (Hamburger's—Second Floor—Today)

## Undisputed

The mansion, built of fireproof materials—the flammable and unsafe architect and owner.

## the roof

combining utility with both in money value a proof, durable, ultimate by far the most artistic tile roof for every type.

We are manufacturers of patterns and colors.

UNIONS START WAR ON COURTS.

Openly Revolt Against Industrial Injunctions.

Ask Congress to Enact Protective Legislation.

"Bill of Rights" Beseeches Support of Public.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 23.—Enactment by Congress of a law declaring labor organizations are not partnerships and "shall not be treated in law or in equity," is demanded by organized labor in a declaration of principles adopted tonight by representatives of national and international unions affiliated in the American Federation of Labor.

The declaration approved after an all-day conference, at which Samuel Gompers presided, also called for the immediate restoration of exemption from, or the repeal of, anti-combination and so-called conspiracy laws.

Condemning use of the injunction under present laws, the declaration asserted "that the only immediate course" through which labor could find relief "lies in a refusal on the part of labor to recognize or abide by the terms of injunctions which seek to prohibit the doing of acts which the workers have a lawful and guaranteed right to do."

REALIZED CONSEQUENCES. "Labor realizes fully the consequences of such a course," it was added, "but in the defense of American freedom and of American institutions it is compelled to adopt this course, be the consequences what they may."

Organized labor set forth the principles for which it stands and called on the people to rally with labor "to the defense of our imperiled American institutions."

Employers are warned in the declaration that labor "not only insists on maintaining the present standards of wages and working conditions, but declares its solemn purpose to continue its struggle to further improve these standards."

The declaration charged "some employers" with supporting, "at times in secret," some of the "insidious propaganda of radical European fanaticism," because of their "common antagonism to the trade-union movement."

"There is an unscrupulousness and a natural aptitude for intrigue in this fanatical propaganda," the statement said, "which makes it a most subtle menace to every democratic ideal and institution in our country."

SEEK LAWS REPEAL. Repeal by the States of all industrial court laws and all restrictive and coercive laws, including the commonly known open-port law of Texas, was demanded, together with freedom from decisions of courts holding trade unions and individual members thereof liable in damages for the unlawful acts of others.

Other recommendations in the declaration included: Prohibition of immigration for not less than two years. More liberal application of the initiative and referendum in political affairs. Removal of the power of courts to declare unconstitutional laws enacted by Congress.

Election of judges. Restoration of an adequate Federal employment service. Administration of credit as a public trust in the interest of all.

Investigation by Congress of the activities of private detective agencies in the field of industrial relations.

RALLY ROUND THE FLAG. The declaration also called on workers to "resist all efforts to destroy the trade unions, whether by the false pretense of the open shop."

IF BACKLASHY OR KIDNEYS BOTHER

Eat less meat, also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Get less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Drugists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—(Advertisement.)

Come at once, before it is too late. 216 South Broadway, Room 216. Hours: 10 to 6; Sunday, 10 to 12; Wednesday evening, 6 to 8.—(Advertisement.)

ERIE RAILROAD AND EMPLOYEES CLASH.

WORKERS CHARGE VIOLATION OF TRANSPORTATION ACT IN WAGE REDUCTION.

(BY A. P. NIGHT WIRE.)

CHICAGO, Feb. 23.—Sharp contention over powers of the Railroad Labor Board and provisions of the Transportation Act marked the hearing of employees of the Erie Railroad against their employer today.

The employees' petition charged violation of the act and of decisions of the labor board. Representatives of the road denied both. The case resulted from an order, effective February 1, reducing common labor wages and deducting one day's pay a week from the salaries of all employees paid on a monthly basis.

Most of the arguments centered about whether a ruling of the board February 12, ordering the road to make no change in wage rates, was compulsory on the road, which had put a reduction into effect. It was conceded by the railroad representatives that the intent of the order was to maintain the wage award of July. They denied, however, violation of the law in changing those rates.

COMMERCE BOARD IS SWAMPED BY CLAIMS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 23.—The Interstate Commerce Commission is flooded with claims of overcharges by railroads during government control under the Federal Food and Drug Administration that all such claims must be passed on by the commission instead of by the courts and fixing the last day on which they may be filed as March 1, will probably bring in \$100,000 and claims in the next few days, clerks of the commission believe. Swift & Co., it is understood, have 10,000 such claims.

TUBERCULOSIS UNION TO MEET IN LONDON.

(BY A. P. DAY WIRE.)

NEW YORK, Feb. 23.—The first meeting of the International Union Against Tuberculosis, including representatives of nations members of the League of Nations and the United States will be held in London, July 26 to 28, it was announced today by the National Tuberculosis Association. Dr. Gerald H. Webb of Colorado Springs, Colo., will represent the United States.

OKLAHOMA BONUS BILL Falls.

(BY A. P. NIGHT WIRE.)

OKLAHOMA CITY (Okla.), Feb. 23.—The House today failed to pass a bill authorizing a bond issue of \$25,000,000 to provide a bonus for Oklahoma service men. The final vote showed only thirteen in favor of passage.

CHAMP CLARK Ill.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 23.—Representative Champ Clark, Democratic leader of the House, is ill with a cold at his home here.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—(Advertisement.)

TODAY'S BEAUTY HELP

We find you can bring out the beauty of your hair to its very best advantage by washing it with cantrox. It makes a very simple, inexpensive shampoo, which cleanses the hair and scalp thoroughly of all the dandruff, dirt and excess oil, leaving a wonderfully clean, wholesome feeling. After its use, you will find that the hair dries quickly and evenly, is never streaked in appearance and is always bright, soft, and fluffy; so fluffy, in fact, that it looks more abundant than it is, and so soft that arranging it becomes a pleasure. Just use a teaspoonful of cantrox, which you can get from any good druggist, dissolve it in a cup of hot water; this makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head.—(Advertisement.)

Said Can't Be Done

"My experience with doctors and medicines caused me to lose faith in both, and when a friend told me that Mayr's Wonderful Remedy would cure my stomach trouble I told him 'it can't be done.' However, he finally persuaded me to try it and to my surprise it did. All symptoms of acute indigestion and gas having disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. At all druggists.—(Advertisement.)

Nicaragua Approves Refund.

(BY CABLE AND ASSOCIATED PRESS.)

MANAGUA, Feb. 23.—Refund of the Nicaraguan delegation at the Central American Union Congress at San Jose, Costa Rica, to sign the pact creating the Central American Union, was approved for patriotic reasons at a joint session of the House and Senate here today.

ATLANTA (Ga.) Feb. 23.—Samuel W. Castleton, counsel for Eugene V. Debs, said today he had not been permitted to communicate with Debs since Debs, through Castleton, gave out an interview criticizing President Wilson, three weeks ago. Mr. Castleton denied Debs had knowingly violated prison rules in giving out the statement criticizing the President.

"I had gone to the prison in company with a newspaper man, expecting to get a signed statement from Debs on President Wilson's failure to act favorably on his release," he said. "After we were in the interview room, Debs said it was impossible for him to give a signed statement, but would discuss the matter informally there, in the presence of the guard, and we could gather the matter for our interview. That was done and I later issued the interview."

UNIONS PROTESTING RELIEF TO RAILWAYS

(BY A. P. NIGHT WIRE.)

CHICAGO, Feb. 23.—A protest against the Winslow-Townsend bill, which would allow the government to make partial payments to railroads of money due under the guarantee given during Federal control, was telegraphed to President Wilson today by B. M. Jewell, president of the Railway Employees' Department of the American Federation of Labor. The bill now awaits the President's signature.

The roads, charged that the bill, "under a threat of a complete breakdown of the transportation industry" are undertaking to levy tribute of hundreds of millions of dollars on the treasury of the United States, and that they insist that the railroad owners shall not be permitted to enjoy the financial benefits of the Transportation Act and of the proposed amendment until they have demonstrated their willingness to guarantee human rights of their workers."

POLISH MINISTER TO HAND IN RESIGNATION.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Feb. 23.—Prince Sapieha, the Polish Foreign Minister, who is in Paris, has decided to tender his resignation to President Pilsudski of Poland immediately upon his return to Warsaw, says the Temps today.

The resignation is a result of the decision by the Allied conference in London recently that all the voting in the plebiscite in Upper Silesia to determine whether the district is to be Polish or Germany shall be held on one day, the newspaper says. The Poles hold that the decision favors the Germans.

ARKANSAS MAY BAN FISHING ON SUNDAY.

(BY A. P. NIGHT WIRE.)

LITTLE ROCK (Ark.) Feb. 23.—Fishing on Sunday would be punishable by a fine of \$10, under a bill introduced in the House today. Another bill offered would provide a prison sentence of from three to five years for persons found guilty of bribing baseball players to throw a game.

MANAGUA, Feb. 23.—Refund of the Nicaraguan delegation at the Central American Union Congress at San Jose, Costa Rica, to sign the pact creating the Central American Union, was approved for patriotic reasons at a joint session of the House and Senate here today.

## DAILY TRADE TALK.

### Big Wholesale House Changes Hands; Million Dollars Involved.

BY CHAPIN HALL.

One of the most important business transfers which has been consummated in Los Angeles for some time was completed yesterday when the long-established wholesale grocery house of Stetson & Barrett, one of the largest in the West in point of trade volume, passed under the control of B. A. Simpson of Ardmore, Okla.; A. O. Simpson of St. Louis, and H. C. Ashby, formerly of Denton, Tex., but now a resident of Hollywood.

While no official announcement of the price involved was made it is admitted that the deal involves more than \$1,000,000.

A. B. Barrett and A. L. Stetson who have built the business from a small beginning in 1901 to its present imposing proportions will remain on the board of directors, but will devote most of their time to large outside interests. A. H. Hays, vice president and manager, will retire from the executive staff to care for personal interests. J. H. Gough, for years a director, will remain on the board, and J. A. Cottell, the well-known secretary and treasurer of the concern, will retain that office, together with his place on the directorate.

In the near future the name will be changed to Simpson, Ashby Company, but there will be no change in policy, except as Mr. A. O. Simpson said yesterday, to extend the field of activity and to cement the good will and property which has become a part and parcel of the institution.

B. A. Simpson is president of the new company; H. C. Ashby and A. O. Simpson are vice-presidents and A. Cottell, secretary and treasurer. None of these men are strangers to Los Angeles. Mr. Ashby adopted the name of his home some time ago, and soon became an enthusiastic believer in the future of Southern California and determined to have an active part in building that future.

B. A. and A. O. Simpson were frequent visitors and did not need much urging before casting their lot here. Mr. Cottell, of course, has long been prominent in the active commercial life of the community and in civic and trade organizations. The new owners are men of large means with a thorough understanding of the business they take over.

The real estate does not pass as a part of the transaction, and each of the former owners is said to retain a substantial interest in the business. No changes are contemplated in working personnel.

The equipment of the Stetson & Barrett Company is of the most modern character, and most particular attention is to be devoted to the manufacturing end of the business, especially the packing and promotion departments.

B. A. Simpson was for many years vice-president of the Tyler-Simpson Grocery Company of Ardmore, Okla., where he is a large holder of business property and the owner of a chain of stores and mercantile establishments through Texas and Oklahoma.

Arthur O. Simpson, is vice-president of the Whitman-Simpson department stores of Ardmore, Okla., connected with the Rice-Bliss Dry Goods Company of St. Louis, and introduced with his brother-in-law, Carter county (Oklahoma) oil fields, where they are said to be the largest independent producers.

H. C. Ashby was for a long time a member of Waples-Platter Grocery Company, operating a chain of stores in Texas and Oklahoma where he is recognized as an expert. He will be general manager of the new firm.

The establishment is located in a fine plant at 117-123 Santa Fe avenue.

### EQUIPMENT OFFERING.

The Equitable Trust Company of New York, trustee for the Union Tank Car Company equipment trust, 1 per cent interest, in August of last year, has published a notice inviting offerings of these notes for sale to the sinking fund which has been established toward their retirement. The trustee now has on hand the sum of \$40,000 available for the purchase of the notes. The original agreement under which the Union Tank Car notes were offered provides for the establishment of a sinking fund of \$1,250,000 annually, payable in semi-annual installments beginning Feb. 1, 1921.

### INDUSTRIALS WEAK.

Acute weakness in a number of industrial stocks was a feature of the eastern market yesterday, but the best option appeared to be that a rally is due. The technique is favorable, and there is a bullish tendency which may expand about March 4.

### LOS ANGELES STOCKS.

The market showed a post holiday dullness. Transactions were light, and there were few material price changes. Tenth Street was perhaps the most active trader opening at 1.27 and declining to afternoon sales

### FINANCIAL.

OFFICE OF THE TIMES.

Los Angeles, Feb. 24, 1921.

Bank clearing yesterday was \$14,842,400, an increase of \$2,457,900, as compared with corresponding day in 1920.

Monday \$12,240,000; Tuesday \$12,240,000; Wednesday \$12,240,000; Thursday \$12,240,000; Friday \$12,240,000.

### LEADERS HOLD FIRM ON PRODUCE MARKET.

GRAPEFRUIT ADVANCES UNDER ACTIVE BUYING; PEAS AGAIN SLUMP.

Despite the fact that the demand for fruits and vegetables yesterday was dull, the produce market for most of the leading items was firm and unchanged at the level of the preceding day. Receipts from the country and by rail were moderate, and most of the offerings were moved readily during the session.

Peas were again in demand at 1 1/2 to 2 1/2 cents per bushel, with a few extra fancy offerings bringing as high as \$1.50.

Local buyers were active for the first time in some time, and the quality of the offerings was very good. Local buyers were active for the first time in some time, and the quality of the offerings was very good.

# Your Move!

There are just two kinds of people in this world—those who DO and those who DON'T. Mingle in any crowd or join any social gathering, and within a few minutes' time, you can distinguish the one from the other.

Success is neither a matter of luck, nor Black Magic. It doesn't merely "happen," neither does it come at the beck and call of some "Open Sesame." But success is, purely and simply, a result of POWER OF DECISION.

Show ONE man a business proposition, and immediately he analyzes it, finds it good, makes up his mind and ACTS!!! That man, ninety-nine cases out of a hundred, is RIGHT. It is impossible to "keep him down." His judgment and Power of Decision make him UNCONQUERABLE—and he is the man to whom you usually refer when you mention financial success.

Show the OTHER man the same proposition. He believes it is good, and would act, IF—and thereby hangs the tale. He DOESN'T have the Power of Decision, and consequently does NOT act. He lets his judgement dicker along, never comes to a DECISION and in the final summing up, accomplishes little. HE is the man to whom you refer as the Chronic Failure.

Now I don't claim that RIDGE OIL will POSITIVELY make a fortune for everyone who buys a few shares of stock. But I DO believe that RIDGE is one of the best Oil Bets ever offered.

You don't have to take MY word for it, either. Geologists who know RIDGE property back up every statement I have made concerning the chances for getting Big Production on RIDGE holdings. And the RIDGE well itself—and the excellent showings already obtained in that well—indicate that it will prove a Big Producer when completed.

The RIDGE well is getting close to the depth at which I expect it to encounter the gusher sands that have made Richfield known as "California's Most Consistent Gusher Field." And RIDGE SHARES ARE DISAPPEARING RAPIDLY before the onrush of investors who realize that it is a real opportunity, and who back up their beliefs by DOING.

A few days more, and I feel certain that the few remaining RIDGE shares at \$1.00 a share will be entirely sold out. So the next several days is going to see the battle between the folks who DO things and the folks who DON'T. To which class do you belong?

The DO's are on the job. If you intend STAYING in this class—if you intend getting your RIDGE shares, and moving on with hundreds of other investors to the success and profit I am confident are but a matter of MONTHS, I advise you to come to your decision, and then get in touch with me BEFORE THE SUN SETS TODAY!

## Huntington Central Well No. 2 to "Spud In"

Several weeks ago we stated that drilling on well No. 2 would be begun by March 1st. The efficiency of our entire development program has been such, however, is enabling us to start on this well SEVERAL DAYS SOONER THAN WE EXPECTED. While a great deal of credit is due the men and men in the field, the company's management is deserving of a large share of the honors for keeping things running smoothly and for having made the necessary provisions for supplies and materials in a businesslike and economical manner.

Huntington Central stockholders and the general public are invited out to our property Sunday to see "Spud In" in action. Come and see for yourselves the rapid progress we are making on our beach.

By the time our well No. 2 is cemented, No. 1 will be into the producing sands that we are confident will give us a big well. It appears, therefore, as if the value of our holdings must take a tremendous jump, and that this increase will be reflected in corresponding increases in the potential value, as well as the actual market price of Huntington Central.

Well No. 2 is cemented, No. 1 will be into the producing sands that we are confident will give us a big well. It appears, therefore, as if the value of our holdings must take a tremendous jump, and that this increase will be reflected in corresponding increases in the potential value, as well as the actual market price of Huntington Central.

## GIVE BIG RATE CUT TO LEMONS.

Seventy-Cent Tariff Granted by Steamship Lines.

Dollar a Hundred Less Than Rail Carriers Charge.

Strong Boost for Industry at Critical Moment.

A reduction in rates that will make it possible for lemon growers in Southern California to ship fruit from Los Angeles Harbor to Atlantic ports at 70 cents per 100 pounds instead of \$1.67, now asked by the rail carriers, was announced here yesterday by steamship men and officials of the California Fruit Growers' Exchange. The cut is so great as to make it a substantial boost to the industry at a critical moment, it is declared.

The 70-cent rate, together with handling and insurance charges, will place the lemon growers in a position to deliver their product on the eastern coast at \$1.00, or a little less, per 100 pounds, and enable them to have the fruit shipped to inland points as far as Pittsburg, Buffalo, Wheeling, and still make considerable in transportation, according to the men who helped bring about this reduction.

TWELVE LINES JOIN. Recent experiments by the California Fruit Growers' Exchange showed that a substantial reduction in the water routes as compared with the all-rail shipments, according to T. H. Powell, lemon sales agent of the organization. Lemons shipped to Philadelphia arrived there in perfect condition, Mr. Powell said.

The first news of the steamship rate reduction was received here by the exchange and McCormick & McPherson, agents for the American-Hawaiian line, whose boats are identified with the commerce of the harbor. An investigation into the conditions in the lemon industry showed that a substantial reduction in rates was necessary. After consultations with officials of the California Fruit Growers' Exchange, the matter was taken up by W. S. McPherson and Harold C. Smith, with the officials of the line.

A memorandum prepared by the exchange, of the tonnage expected to go to the east during 1921, was sent north February 19. A telegram announcing the reduction was received here yesterday afternoon. Twelve lines join in the reduction.

The new rate will go a long way toward meeting the competition of Italian lemons, which are now being shipped to American Atlantic ports from Mediterranean points at 60 cents per 100 pounds.

The estimate of the shipments was based on the rail forwarding figures of 1919, which showed that 2,652 carloads of lemons were shipped to Atlantic and near-by ports from Los Angeles, New York, Philadelphia, Baltimore and Charleston—all points reached by steamships direct—received the greater share of the shipments. The new water rates will apply to lemons shipped in carload lots from Los Angeles Harbor to any Atlantic port.

THROUGH THE CANAL. Sailings of steamers through the Panama Canal are now so frequent that a constant flow of citrus fruits to the eastern markets can be maintained. The steamship companies are prepared to give proper storage to the fruit and in every way in their power to make the best possible condition, according to Mr. Smith.

An announcement from the office of S. L. Kreider, agent for the Williams Steamship Company, also gives the details of the new rates. The next Williams line, sailing from Los Angeles available for lemon shipments are given by Mr. Kreider as follows: New York, March 23, for New York and Baltimore.

"We received this news with considerable joy," Mr. Powell said last night. "It will give us a substantial help through this reduction in transportation charges. There are no advantages in the all-rail shipments that can compare with the advantage this offers. The tonnage may be even larger than we expect, and the inauguration of water shipments may open a way to other citrus fruit shipments in the future."

The American-Hawaiian boats make the trip to the Atlantic ports in about seventeen days.

TREASURY ANNOUNCES LOANS TO RAILROADS.

WASHINGTON, Feb. 23.—Payment of two loans to railroads totaling \$1,100,000 was announced today by the treasury. The New York, New Haven and Hartford Railroad was advanced \$700,000 and the Ann Arbor Railroad Company received \$400,000. This brings the total of \$182,192,637 in loans made to the carriers to date from the \$300,000,000 revolving fund.

## PASS AGRICULTURE BILL.

Appropriations Nine Millions in Excess of Those for Current Year.

WASHINGTON, Feb. 23.—Over a running fire from Senators who presented detailed objections to its proposals for increased expenditures, the Senate today passed the agricultural appropriation bill carrying approximately \$41,000,000 for the year beginning next July.

This is nearly \$9,000,000 in excess of appropriations for the current year, and almost \$4,000,000 in excess of amounts allowed by the House, to which it was sent for conference.

"I am going to ask the next Secretary of Agriculture to go through this bill and take out of it all the appropriations that allow work to be duplicated by two or more departments," said Senator Smoot, Republican, Utah, who at the time of the bill's passage, was in the Senate. "They ought to be cut before another estimate comes to Congress. This must stop. Congress has got to show the departments of this government that two and three of them cannot ask public money to be spent for doing the same kind of work over and over again. One trouble is that different bureaus are enabled to go before

## OUTFALL SEWER PLAN OPPOSED.

Chicago Expert Says Voters Here Should Go Slow.

Reduction System Cheap and Sanitary, He Declares.

Product Would be a Welcome Supply of Fertilizer.

"The Los Angeles outfall sewer proposition may be all right, but if I were a resident and a voter of Los Angeles, I would look into the situation as it exists here seriously and earnestly before I would vote for a dilution system which might carry contamination into my neighbor's front yard."

Such was the statement of Dr. Willis O. Nance, of Chicago, noted sanitary engineer, before an open forum at the City Club last night. Dr. Nance told in some detail of the various methods employed by Chicago to solve the difficult problem which has confronted that city in the disposal of its sewage, and stated that the scientific treatment now being undertaken by Chicago, which reduces the refuse to water and fertilizing sludge, has been found most sanitary and economical.

"For some time we have operated an experimental plant," he declared, "and the result has been so satisfactory that the city of Chicago has made a pledge to the government that in fifty years we will be able to treat 50 per cent of our sewage by the use of the sludge treatment than to pollute the front yards of our neighbors. A system that has always created breeding grounds for typhoid germs. The same system can be operated here if the people can be convinced that it is best. I believe that the farmers and citrus growers of Southern California would be mighty glad to receive the sewage as fertilizer and they cannot get it if you send it all out into the ocean."

"We in Chicago, know as much of the beautiful beaches of Southern California as you do out here, and if I were going to vote upon the matter, as all of you voters will do, I most emphatically would want to see the Pacific Coast people marring the beauty of such places as Venice, Santa Monica and Long Beach with sewage dumped into the ocean."

The open forum of the City Club was specially called to discuss the sewer problem and to hear Dr. Nance's advice.
